**Introduction:**

Double Draw Poker is played with a standard 52- card deck and 2 jokers. The jokers can be used as an Ace or to complete a "straight" or "flush". The players get two chances to draw cards to complete their 5 card poker hand.

Rules of Play:

1. To start the game, players must make equal bets on the Ante and Bonus betting spots. Next, the cards are shuffled and each player is dealt five cards face down. After the player views their five cards, they may choose to fold - forfeiting their "Ante" and "Bonus" bets ending their game, or if the player wants to continue, they must make an additional "Draw up to 3 Cards" bet equal in size to their Ante bet.
2. The player now has the option of discarding up to 3 of their cards and draw additional cards equal to the number of cards they discarded. The dealer will deal the draw cards face down.
3. The player again has the option to fold their hand and surrender all wagers placed thus far or if the player wants to continue they must make another "Draw 1 Card" bet equal in size to "Ante" bet and they now have the option of discarding one card from their hand and drawing an additional card, which the dealer will deal face down. NOTE: Even if a player doesn't want to draw a card but wants to stay in the game, they will need to place the "Draw 1 Card" bet.
4. The dealer will now turn the player's 5 cards over and pay and take according to one of the selected paytables.

Winning and Losing:

- If player pushes or wins according to the Bonus payable selected, then the player also gets paid 1 to 1 on the Ante, Draw up to 3 Cards, and Draw up to 1 Card wagers.
- Bonus – See Paytable for odds payout for Bonus wager.

Card room operators must not allow wagering limits to exceed the authorized limits set out in WAC 230-15-040 and WAC 230-15-140.
