In BETween with Buster Blackjack is standard house-banked blackjack but with two optional bonus wagers. All rules pertaining to standard blackjack as posted on the WSGC's website remain the same and are not altered in this game.

Introduction:

In BETween with Buster Blackjack may be played with one to eight decks of cards. All house rules apply to the game, with the addition of the In BETween with Buster Blackjack bonus bet procedures described in this document.

The IN BETween wager wins if the dealer's upcard falls between the player's initial two cards according to the rank order (2-3-4- 5-6-7-8-9-10-J-Q-K-A) and will lose if the dealer's upcard falls outside the player's initial two cards according to the rank order. However, if the dealer's upcard and the player's initial two cards are the same rank the player wins.

A Buster Blackjack wager wins if the dealer's completed hand exceeds 21, and the player's point total is 27 or less, the dealer will pay all Buster Blackjack wagers based on the number of cards in the dealer's hand (see pay table for odds).

Wagering:

All In BETween and Buster Blackjack wagers must be placed within their respective wagering circles at the same time the blackjack wager is made. Players must make a blackjack wager to make either In BETween and/or Buster Blackjack wagers.

Players are not permitted to make a In BETween and/or Buster Blackjack wager on another player's hand. If a player is playing multiple hands, they may make a In BETween and/or Buster Blackjack wager for each hand they are playing.

In BETween and/or Buster Blackjack wagers may not exceed the regular blackjack wager or the posted maximum for the In BETween and/or Buster Blackjack wagers.

An In BETween wager shall have no bearing on any other wager made by a player at the game of blackjack and applies only to the player's first two cards.

Dealing:

Dealer will deal the game of blackjack and immediately after the second card is dealt to each player, and prior to any additional cards being dealt to any player at the table or the dealer and before any card reader device is utilized, the dealer shall, starting with the player farthest to his or her right and continuing around the table in a counter-clockwise direction, settle in succession all IN BETween wagers by collecting all losing wagers and paying all winning wagers in accordance with the posted payable.

Then if the dealer's up card is an Ace or a ten-value card, the dealer shall check his hole card for a blackjack. Dealers will offer insurance before checking under Aces per standard Blackjack procedures. If the dealer has a blackjack, all Buster Blackjack bonus wagers lose.

If a player who made a bonus wager has a blackjack and the dealer does not have a blackjack, the dealer will pay the player's blackjack wager, tucking the player's two cards face up under the player's bonus wager to indicate that the bonus wager remains in action.

If a player who made a bonus wager busts, the dealer will collect the player's blackjack wager and put the player's cards together in a pile, tucking them face up under the player's bonus wager to indicate that the bonus wager remains in action.

NOTE: As long as there are Buster Blackjack bonus wagers remaining in action, the dealer must complete his hand so the outcome of the bonus wager can be determined. This is done even if all the players have busted and/or received a blackjack.

Payoffs:

Winning IN BETween wagers are paid according to the respective card spread and posted payable. Examples of card spreads are as follows:

- One card spread (dealer's upcard is a 5, player's cards are 4 and 6)
- Two card spread (dealer's upcard is a 5 or 6, player's cards are 4 and 7)
- Three card spread (dealer's upcard is a 5, 6, or 7, player's cards are 4 and 8)

The In BETween wager will lose if the dealer's upcard falls outside the player's initial two cards according to the rank order. However, if the dealer's upcard and the player's initial two cards are the same rank the player wins.

For Buster Blackjack, if the dealer's completed hand exceeds 21, and the player's point total is 27 or less, the dealer will pay all bonus wagers based on the number of cards in the dealer's hand (see pay table for odds).

If the dealer's completed hand does not exceed 21, all Buster Blackjack wagers lose.

Player Blackjack Free Bonus:

A casino operator may elect to include a player payout called Free Bonus in addition to the Buster Blackjack wager payout. A player may qualify for the Player Blackjack Free Bonus if the following conditions are met:

- The player must have a blackjack.
- The player must have a \$5 minimum wager on the Buster Blackjack wager.
- The dealer's hand must bust with 7+ cards (see payable for payouts).

NOTE: When the player is dealt a blackjack, the dealer should tuck the player's cards face up under his Buster Blackjack wager such that both the Ace and 10-value card can be seen.

Toke Bets:

Players may make In BETWEEN and/or Buster Blackjack toke bets for dealers.

- Payoffs for toke bets are paid using the same pay schedule used for players.

NOTE: Dealer toke bets do not qualify for the Player Blackjack Free Bonus pays.

Card room operators must not allow wagering limits to exceed the authorized limits set out in WAC 230-15-040 and WAC 230-15-140.
