Game Description

21+3 is a standard blackjack game with an optional 21+3 Bonus or Progressive wager. All rules pertaining to the standard, non-patented game of blackjack, as posted on the WSGC website, remain the same except as specifically noted in these game rules. The game can be played using 2-8 standard 52-card decks.

Casino operators choose which bonus wagers they will offer, subject to any restrictions contained within these Rules of Play. Each bonus wager may be made at the player's option and there is no effect on the primary game and no changes in player strategy. Minimum and maximum wagering limits are established by the casino operator in accordance with the limits set in WAC 230-15-040, WAC 230-15-140, or their specific regulatory body.

Rules of Play

1. To begin each round, players are required to place a standard blackjack wager. Players may also place a wager on any of the available and configured optional bonus wagers.
2. The dealer follows house procedures to deal the primary blackjack game.
3. The dealer then follows house procedures to reconcile primary and optional bonus wagers.

Equipment

This game will use the Galaxy Gaming owned Andromeda Bonus Jackpot System Series 3d or higher. Jackpot meter displays will not contain additional intelligence or functionality, including but not limited to network capability, wired or wireless.

If operators use an automatic shuffle machine, it must be a WSGC approved model, manufactured by a WSGC licensed manufacturer.

Gambling Promotions

A gambling promotion may be added to any of the bonus wagers at the discretion of the casino operator and with the written consent of Galaxy Gaming.

Optional Bonus Wagers

Lucky Ladies

The player wins their Lucky Ladies wager if the player's first two cards have achieved a pre-determined triggering event according to the corresponding payable (see Appendix "A", referred to as "First 2 Cards Equal 20" on the layout bet spot). The dealer's cards are sometimes used in combination with the player's cards to determine if additional prizes are awarded.

Bust Bonus

The player wins their Bust Bonus wager if the dealer's hand results in a "bust" and the player's hand does not result in a bust with a point total of 30. This wager is placed after the initial round of cards have been dealt but prior to the dealer revealing their face-down or "hole" card. The player wins this bonus wager if the total of the dealer's hand results in a point total exceeding 21 and if the player's hand does not result in a bust with a point total of 30. Winning players are paid according to the dealer's initial face up card when matched to the corresponding payable (Appendix "B").

21+3 Classic

The player wins their 21+3 Classic wager if the player's first two cards and the dealer's face-up card have achieved a pre-determined triggering event according to the corresponding payable (see Appendix "C").

21+3 Xtreme

The player wins their 21+3 Xtreme wager if the player's first two cards and the dealer's face-up card have achieved a pre-determined triggering event according to the corresponding payable (see Appendix "D").

Top 3

Top 3 is a second optional bonus wager offered with 21+3 Classic or Xtreme. A player may not make a Top 3 wager without making either a 21+3 Classic or 21+3 Xtreme wager first. A player wins if their first two cards and the dealer's face-up card have achieved a pre-determined triggering event according to the corresponding payable (see Appendix "C" and Appendix "D").

Bonus and Progressive Jackpots

- Operators may choose to offer up to two jackpot game options on a layout using two independent wagering sensors and displaying two independent jackpot amounts
- Each jackpot sensor is considered a separate game
- Progressive Jackpots cannot be linked with Bonus Jackpots
- All jackpots on a table must be of a single jackpot type (Bonus or Progressive)
- Operators can only offer one jackpot game option per sensor

21+3 Bonus or Progressive Jackpot

The player wins their 21+3 Bonus or Progressive Jackpot wager if the player's first two cards and the dealer's face-up card have achieved a pre-determined triggering event according to the corresponding payable (see Appendix "E").

Bonus or Progressive Jackpot Definition

If operated as a **Bonus Jackpot**, the table display does not increment after each wager is placed. All Bonus Jackpot displays must include the following language: "Bonus Jackpot prizes are paid by the casino and are not components of any progressive prize contest. Player wagers do not accrue to any guaranteed player fund. The displayed Bonus Jackpot prize may be modified or discontinued at any time without prior notice."

If operated as a **Progressive Jackpot**, the table display should increment after each wager is placed. Casino operators must follow the rules contained in WAC 230-15-680 through WAC 230-15-720. Prizes displayed are considered to be held in escrow by the casino operator who acts as the custodian of the funds for the benefit of the players. Operators offering progressive jackpots must: (1) Ensure specific wager limits on progressive wagers to ensure all funds are accounted for; and (2) Maintain and account for all funds collected for progressive jackpot games.

The operator's internal controls must define how the Jackpots are configured and how they are won and if operated as a bonus or a progressive game.
