RE: Arizona Stud

Dear Mr. Hong,

We have reviewed the changes made to Arizona Stud. Based on our review of the documentation we received from eTable Games Inc., the Washington State Gambling Commission will approve the game under the conditions listed below:

- The game shall be played and operated under the terms and conditions set forth under the "Arizona Stud Rules of Play" you provided on July 21, 2015.

Commercial Card Rooms

- Commercial card room operators seeking to operate this game must first submit their internal controls and receive approval from the Commission prior to implementing.
- Manufacturers and distributors of graphic layouts and/or any other equipment associated with the game must be licensed by the state prior to the sale of the equipment.

Tribal Casinos

- Each Tribal Gaming Operation must request and obtain approval from their respective Tribal Gaming Agencies (TGA).
- Before TGA allows your game to operate, they will seek concurrence from our agency as well.

- In addition to your approved rules, the Tribal submission to us must include all supplemental information required by Tribal-State Compact Appendix A, Section 18.
- Manufacturers and distributors of graphic layouts and/or any other equipment associated with the game must be certified by the state and licensed by the Tribe prior to the sale of the equipment.

Any modifications to this game may affect this approval. If you have any questions on commercial implementation, please contact Jess Lohse at (425) 277-7017. If you have any questions on Tribal implementation, please contact Kelly Main at (206) 423-4260.

Thank you for your cooperation and willingness to comply with the gambling laws of Washington State.

Sincerely,

Tina Griffin
Assistant Director
Licensing, Regulation and Enforcement Division

A 5 Card Stud Poker Table Game

ARIZONA STUD - V1

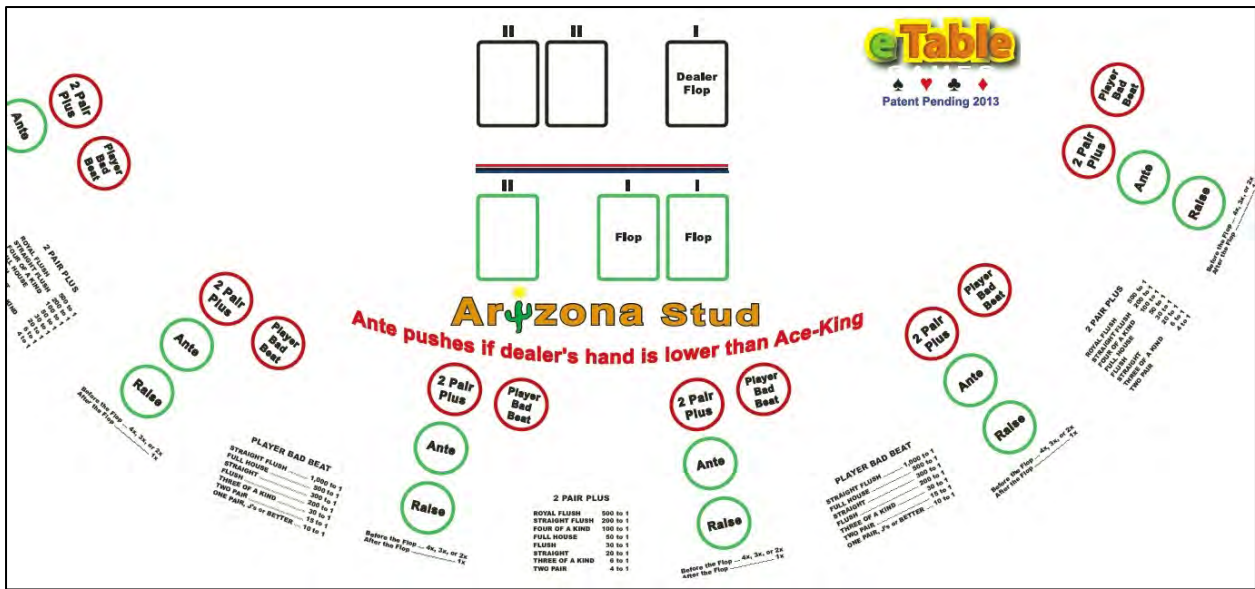

Card room operators must not allow wagering limits to exceed the authorized limits set out in WAC 230-15-040 and WAC 230-15-140.

Arizona Stud is a 5 card stud poker game played with one deck of 52 cards.

Before the game starts, each player must place an **Ante Bet**. Each player receives 3 cards; the dealer is dealt 3 cards face down. 3 community cards are also dealt face down. The community cards are subsequently used to complete the players' and the dealer's hands.

After being dealt 3 cards, each player must choose one of the 3 cards to discard. The player can then make a **Raise Bet** equal to 4X, 3X or 2X the Ante or can check.

The dealer then exposes 2 of the 3 community cards and 1 of the dealer's 3 cards. Following that, each player who has not already made a **Raise Bet** can make a **Raise Bet** equal to 1X the Ante or fold.

The dealer then exposes the 1 remaining community card and the dealer's 2 remaining cards, and selects 2 of the dealer's 3 cards to make the best 5 card poker hand for the dealer.

If the dealer's hand is lower than Ace-King, all of the players' **Ante Bets** are returned. If the dealer's hand is at least Ace-King and the player's hand beats the dealer's, the payout on the player's **Ante Bet** and **Raise Bet** is even money.

“2 Pair Plus Bonus” Wager: If the Player’s final hand is 2-pairs or higher, this bet wins with odds, otherwise it loses.

“Player Bad Beat” Wager: If the Player loses the hand with a pair of Jacks or better, this bet wins with odds, otherwise it loses.

RULES OF PLAY AND DEALING PROCEDURE

Arizona Stud is a 5 card stud poker game played with one deck of 52 cards.

After all Ante bets have been placed, 3 community cards are dealt face down. Each player receives 3 cards; the dealer is dealt 3 cards face down. The community cards are subsequently used to complete the players' and the dealer's hands.

Step 3: The dealer then exposes 2 of the 3 community cards and 1 of the dealer's 3 cards. These card positions are labeled "I" on the layout.

Step 4: Following that, each player who has not already made a **Raise Bet** can make a **Raise Bet** equal to 1X the Ante or fold.

Step 5: The dealer then exposes the 1 remaining community card and the dealer's 2 remaining cards, and selects 2 of the dealer's 3 cards to make the best 5 card poker hand for the dealer.

Step 6: If the dealer's hand is lower than Ace-King (i.e., non-qualified), all of the players' **Ante Bets** are returned. If a player's hand beats the dealer's non-qualified hand, the **Raise Bet** wins even money.

If the dealer's hand is at least Ace-King and the player's hand beats the dealer's, the payout on the player's **Ante Bet** and **Raise Bet** is even money.

Step 7: The dealer also checks for payouts for the bonus wagers:

"2 Pair Plus Bonus" Bonus Wager

If the Player's final hand is 2-pairs or higher, this bet wins with odds, otherwise it loses.

"Player Bad Beat" Bonus Wager

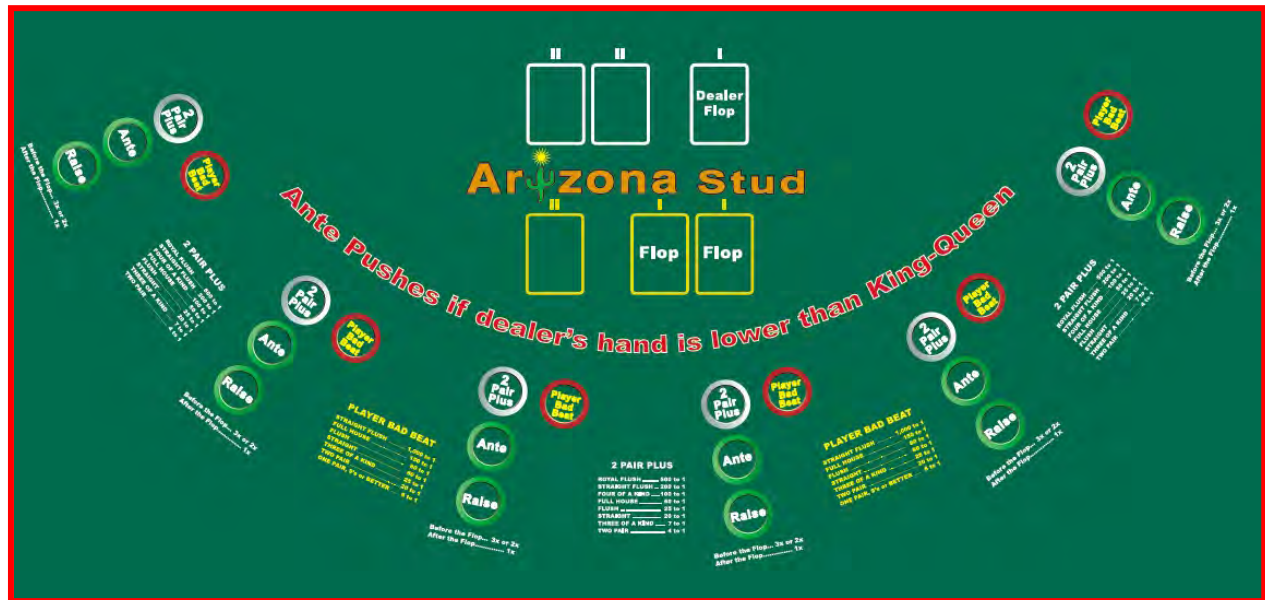

If the Player loses the hand with a pair of Jacks or better, this bet wins with odds, otherwise it loses.

Step 8: Game ends.

ARIZONA STUD – V2

RULES OF PLAY AND DEALING PROCEDURE

Card room operators must not allow wagering limits to exceed the authorized limits set out in WAC 230-15-040 and WAC 230-15-140.”

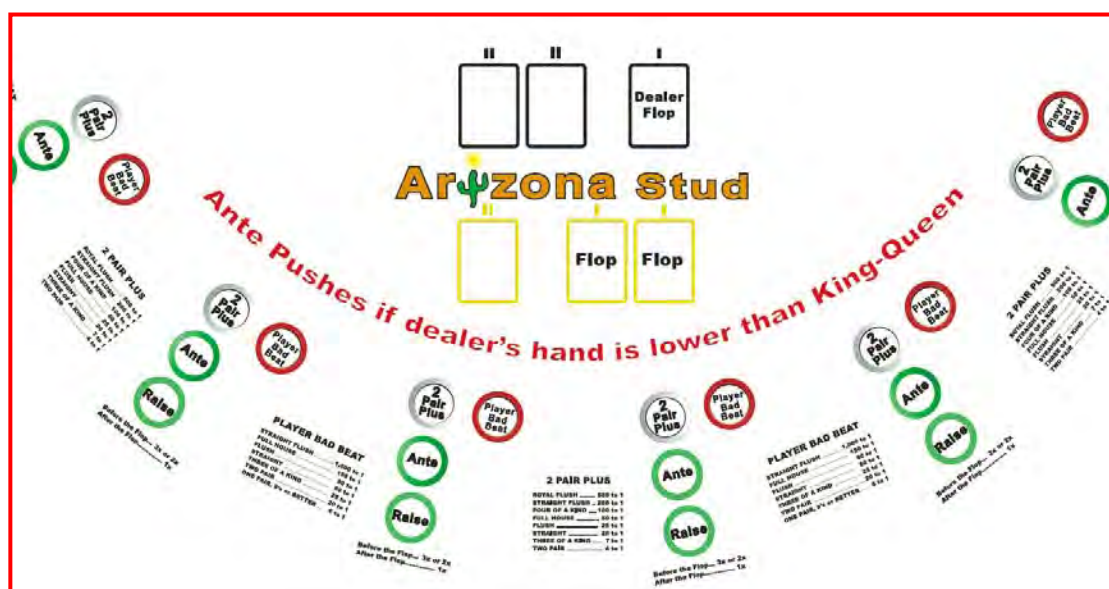

Arizona Stud is a 5 card stud poker game played with one deck of 52 cards.

Step 1: Before the game starts, each player must place an **Ante Bet**. Players have the options to place one or both bonus wagers, 2 Pair Plus and Player Bad Beat, or not betting any bonus wagers.

After all Ante bets have been placed, 3 community cards are dealt face down. Each player receives 3 cards; the dealer is dealt 3 cards face down. The community cards are subsequently used to complete the players' and the dealer's hands.

Step 2: After being dealt 3 cards, each player must choose one of the 3 cards to discard. The player can then make a **Raise Bet** equal to 3X or 2X the Ante or can check.

Step 3: The dealer then exposes 2 of the 3 community cards and 1 of the dealer's 3 cards. These card positions are labeled “I” on the layout.

Step 4: Following that, each player who has not already made a **Raise Bet** can make a **Raise Bet** equal to 1X the Ante or fold.

Step 5: The dealer then exposes the 1 remaining community card and the dealer's 2 remaining cards, and selects 2 of the dealer's 3 cards to make the best 5 card poker hand for the dealer.

Step 6: If the dealer's hand is lower than King-Queen (i.e., non-qualified), all of the players' **Ante Bets** are returned. If a player's hand beats the dealer's non-qualified hand, the **Raise Bet** wins even money.

If the dealer's hand is at least King-Queen and the player's hand beats the dealer's, the payout on the player's **Ante Bet** and **Raise Bet** is even money.

Step 7: The dealer also checks for payouts for the bonus wagers:

"2 Pair Plus Bonus" Bonus Wager

If the Player's final hand is 2-pairs or higher, this bet wins with odds, otherwise it loses.

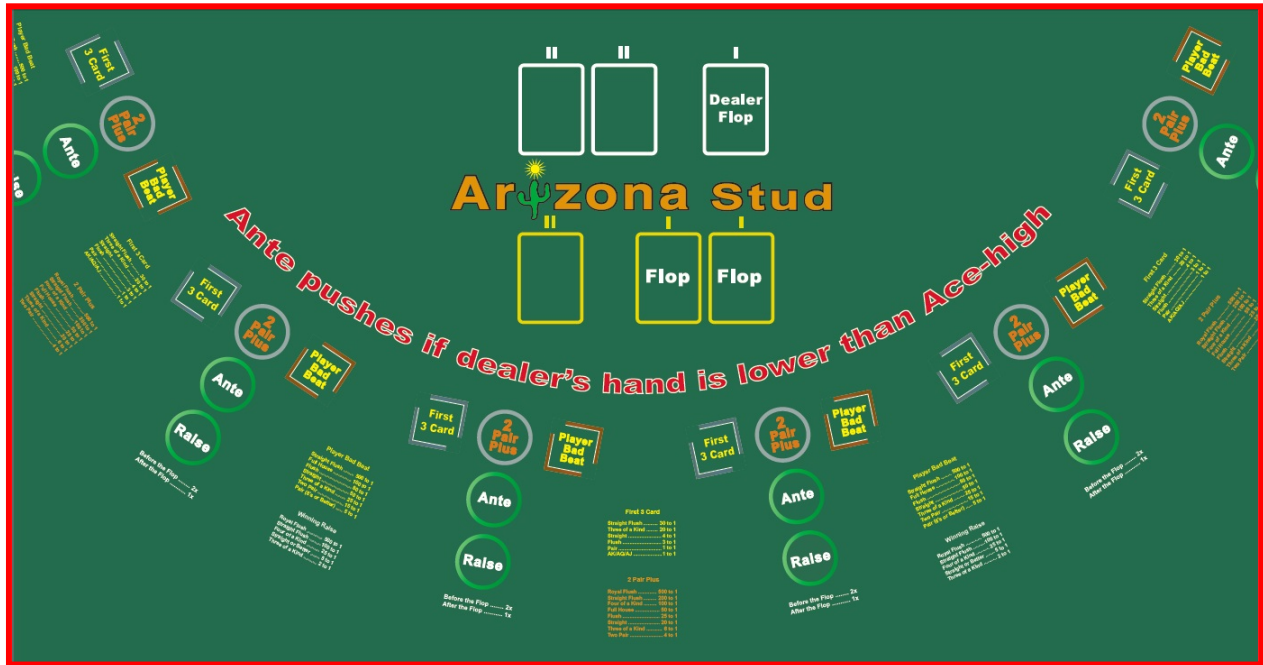

"Player Bad Beat" Bonus Wager

If the Player loses the hand with a pair of 9's or better, this bet wins with odds, otherwise it loses.

Step 8: Game ends.

The dealer then exposes the remaining community card and the dealer's 2 cards, and selects 2 of the dealer's 3 cards to make the best 5 card poker hand for the dealer.

The image shows a green payout table for Arizona Stud. It features four main sections: 'First 3 Card', '2 Pair Plus', 'Ante', and 'Player Bad Beat'. Each section lists poker hands and their corresponding payouts. The 'Ante' and 'Raise' sections are highlighted with green circles. At the bottom, it specifies 'Before the Flop' as 2x and 'After the Flop' as 1x.
