- Bahama Bonus Blackjack is a standard house-banked blackjack game that offers optional Match Bonus, TriLux Bonus, TriLux Super 3 and jackpot wagers. All rules pertaining to standard blackjack as posted on the WSGC's website remain the same except as noted in these rules of play. Side wagers among players are prohibited.
- Operators cannot allow wagering limits to exceed the authorized limits set out in WAC 230-15-040 and WAC 230-15-140.
- If the below games are to be hand dealt with a dealing shoe, dealers will shuffle according to house procedures. The dealer then follows the house dealing procedures. The dealer must comply with WAC 230-15-465. If any automatic shuffle machine is used in conjunction with this game, it must be a WSGC approved model, manufactured by a WSGC licensed manufacture.

Bahama Bonus Blackjack Rules of Play

1. Bahama Bonus Blackjack is a variant of the approved casino game of blackjack. The idea of the game is the same (closest to 21 without going over), but Bahama Bonus Blackjack uses pontoon decks (48 cards with no 10's).
2. Bahama Bonus Blackjack has numerous additional rules that increases player options and payouts.
3. These rules include:
 - a. Doubling on ANY number of cards.
 - b. Player may RE-DOUBLE after doubling down for a total of three doubles. The Player must double their total wager to that point and will get one additional card. **Available on Dealer Hits Soft 17 ONLY.**

Note: Operators may not allow the total doubled wager to exceed the single wager limit set out in WAC 230-15 140.

- c. Double Down Rescue. After doubling, players may choose to Rescue (take back) the last doubled portion of the bet. For a Rescue, a player would forfeit half of the then existing wager if the last doubled portion was equal to the then existing wager, the lesser amount if the player doubled for less, the maximum wager allowed if the last doubled portion hit the cap. Busted Doubles can NOT be Rescued. Double Down Rescue should not be confused with or called Surrender. A player may surrender any first two card hand after the dealer has checked for Blackjack and always gives up ½ of their bet. RESCUE on the other hand applies only to a DOUBLED hand which will be 3 or more cards, and he can only RESCUE the last doubled portion of the bet, forfeiting half of the total wager.
 - Double Down Rescue – The Player may surrender his hand and forfeit his double down wager (saving his initial wager) after seeing his double down card.
- d. Player Blackjack beats a Dealer Blackjack – Pays 3 to 2.
- e. Player 21 beats a Dealer 21 (but not a Dealer Blackjack).

4. There are numerous special payouts:
 - a. 5 card 21 pays 3 to 2
 - b. 6 card 21 pays 2 to 1
 - c. 7 card 21 pays 3 to 1
 - 7+ card 21 pays 3 to 1
 - d. 6-7-8 and 7-7-7 mixed suit pays 3 to 2
 - e. 6-7-8 and 7-7-7 suited pays 2 to 1
 - f. 6-7-8 and 7-7-7 in spades pays 3 to 1
5. If a Player receives a 7-7-7 suited AND the Dealer has a 7 up-card the Player will be paid \$1,000 (fixed) and \$50 (fixed) to all other participating Players in the hand.

Note: Doubling voids all special payouts.

Note: Doubling and Splitting voids the chance to win the suited 7-7-7 fixed pay.

6. Other common Blackjack rules that are in use for Bahama Bonus Blackjack are as follows:
 - a. Late surrender
 - b. Player may double down after splitting
 - c. Player may split up to 4 hands (including Aces and may hit/double after splitting Aces)
 - d. 5, 6 or 8 deck shoe
 - e. Hit soft 17 or Stand on all 17's. Redoubling is only allowed on Hit soft 17 version.

Optional Bonus Bets

Bahama Bonus Blackjack with Match Bonus option

1. Player's must make their standard blackjack wager, one or both of the Match Bonus wagers and the jackpot wager prior to receiving their initial two cards.
2. The Match Bonus wager is two separate wagers. Players can play one or both of the Match Bonus wagers during each blackjack hand.
 - a. The Match-Up, if one or both of the player's initial two cards match the dealer's up-card.
 - b. The Match-Down, if one or both of the player's initial two cards match the dealer's hole-card.

Bahama Bonus Blackjack with TriLux option

1. Player's must make their standard blackjack wager, the TriLux Bonus (if offered) the TriLux Super 3 wagers and the jackpot wager prior to receiving their initial two cards.
 - a. TriLux Bonus considers the player's first two initial cards and the dealer's up-card. If a player receives one of the winning three-card hands they will win. See payable for odds. TriLux Super 3 (if offered) also considers the first two initial cards the player receives and the dealer's up card, but offers higher payouts.

See payable for odds.

 - i. NOTE: The TriLux Super 3 bet CANNOT be wagered unless a TriLux Bonus bet has been placed.
 - b. Once players and the dealer have two cards, the dealer settles TriLux Bonus and (if offered) TriLux Super 3 wagers in one of two ways.
 - i. When the cards are dealt face up, the TriLux Bonus and (if offered) TriLux Super 3 wagers will be settled immediately after everyone receives their first two (2) cards and dealer's first two cards.
 - ii. Winning TriLux Bonus and (if offered) TriLux Super 3 wagers will be paid and losing wagers will be picked up in order of placement from the dealer's right to left. Then, Bahama Bonus Blackjack play will resume.
 - iii. When the cards are dealt face down, the TriLux Bonus and (if offered) TriLux Super 3 wagers will be settled on a hand to hand basis, as the dealer goes from left to right asking for hit/stand determinations.

NEXUS COMMAND/GM ATLAS

Bahama Bonus Blackjack Jackpot Rules of Play:

1. Bahama Bonus Blackjack offers an optional jackpot wager.
2. The bet considers both the player and dealer's initial two cards. If the player and dealer's cards do not have at least a suited pair among their four initial cards, the jackpot wager will lose.
3. Paytables are listed separately.
4. The top percentage pays from the paytable require the player's two initial cards and the dealer's two initial cards to be four-of-a-kind. All other winning hands are paid directly from the chip tray. See paytable for odds.
5. The meter will be reseeded when the 100% award hits. The cost of the reseed has been factored into the casino's mathematical advantage.
6. To begin each round, players must make their standard blackjack wager. They may also place the jackpot wager. Players must place the jackpot wagers on the sensor in front of their betting position. The sensor will light up.
7. Once all players place their bets, the dealer will press "START GAME" on the keypad. The sensors will then light up, indicating a jackpot wager. The dealer will then remove all jackpot bets from the table.
8. The dealer then follows house procedures for dealing Bahama Bonus Blackjack.
9. After the dealer has completed the initial deal and revealed their up-card, the casino has the option to resolve the jackpot immediately or resolve the standard Bahama Bonus Blackjack and jackpot wagers at the same time. Follow the procedure in the next section for reconciling percentage pays from the jackpot meter.
10. Jackpot winners:
 - a. The percentage pays are paid from the jackpot shown on the jackpot meter.
 - b. Other hands are paid from the tray; they do not come off the meter.
 - c. In the event more than one jackpot meter pay hits during the same round, the dealer will first pay the player farthest on the right and then move counter-clockwise to pay other players. As regulatory procedures permit, this policy can be replaced by casino internal controls.
 - d. When a player has a jackpot winner, the dealer will select the player spot corresponding to the player with the winning jackpot hand. The dealer will then press the appropriate hand button on the display. (If the hand button is pressed by accident, pressing it again will turn it off.)
 - e. The dealer shall then contact a supervisor.
 - f. Once the casino verifies the jackpot win, the supervisor will press the confirm button. To complete the action, a Supervisor or Executive card (depending on jackpot level) swipe is required. This records the win onto the Game Manager computer and adjusts the meter appropriately for the prize won. House procedures are then followed for paying the prize. (Reviewing the monitor connected to the Game Manager will show the prize amount to be paid, and pressing the "money bag" icon will print a winpage, which can be used to help record the payout for accounting.)
 - g. When the dealer reconciles all action, he presses "END GAME." This resets the system to begin the next hand.
 - h. Once the Supervisor or Executive card (depending on jackpot level) is swiped the prize is logged into Game Manager. If the jackpot pay needs to be backed out at this point, the award will need to be manually backed out using the Game Manager manual adjustment feature.

Bahama Bonus Blackjack Jackpot

- This game will use the approved LNW Gaming, Inc. owned jackpot system: Nexus Command Game Manager 2 v2.5.4 or higher and a jackpot display or GM Atlas v5.4.0/Nexus Command II v5.4 or higher. The jackpot display can either be provided by LNW Gaming, Inc. or the operator.
- The jackpot display should be a table mounted monitor with no additional intelligence or functionality, including but not limited to network capability (wired or wireless). This non-intelligent monitor can either be provided by LNW Gaming, Inc. or the operator so long as it does not introduce any additional functionality.
- Bahama Bonus Jackpot is an optional jackpot wager. All rules pertaining to Blackjack and approved Blackjack variation games as posted on the WSGC website remain the same except as noted in these rules of play. Side wagers among players are prohibited.

House Jackpot and Progressive Jackpots

- Operators may choose to offer up to two jackpot game options on a layout using two independent wagering sensors and displaying two independent jackpot amounts.
- Each jackpot sensor is considered a separate game.
- Progressive Jackpots cannot be linked with House Jackpots.
- All jackpots on a table must be of a single jackpot type (House Jackpot or Jackpot).
- Operators can only offer one jackpot game option per sensor.
- When operated as a house jackpot, the jackpot amount is at the discretion of the casino. Prizes are set by the casino and are required to be displayed at each gaming table. Prizes displayed are considered property of the casino until won by one or more players. The casino must post all required notices and disclosures at each table and follow all rules for house jackpots in WAC 230-15-671.
- When operated as a progressive jackpot, rules for progressive jackpot prizes are contained within WAC 230-15-680 through WAC 230-15- 720.

- All settings and pays, listed in the above pay tables, are based off a fixed \$1 wager. Card room operators may select a different fixed wager amount. If the Jackpot is configured with a different fixed wager amount, pays are multiplied accordingly and displayed on the meter.

PROGRESSIVE SYSTEMS FLEXIBILITY and RECOMMENDATIONS:

- Progressive meter contribution
 - When using a pay table in which all payouts are deducted from the meter, we recommend utilizing the system to configure meter contribution rates anywhere between 0-100%.
 - Most pay tables with this style of math are designed to grow over time when a contribution rate of 70% or more is used. If less is contributed, the risk of the meter “running dry” increases.
 - When using a pay table in which only the progressive (percentage) pays are deducted from the meter, we recommend only reducing the pre-configured meter contribution rate if any changes are made. Adjusting the contribution rate above the pre-configured value would reduce the mathematical house advantage of the wager.
- Reserve contribution
 - We recommend contributing a small portion of each progressive wager to the reserve. This amount will be added on to any configured seed amount after a 100% award is given, and will help reduce the drop in play expected after a jackpot hits.
 - We do not recommend eliminating a seed amount entirely and using the reserve as the only seed mechanism. All games present a certain likelihood of back-to-back awards, and this method runs the risk of restarting the meter at a very low amount in that case.
- Seed amount
 - We recommend using the pre-configured seed amount in the system. This amount is specific to the pay table selected for use, and is designed to offer a reasonable starting point that works with the pay table’s math.
 - If any changes are made, we recommend the seed amount to be at least as large as the largest “fixed” award on the pay table.
 - We do not recommend configuring a \$0 seed amount.
