Game Description

Dragon vs. Tiger War Pai Gow Poker (Dragon vs. Tiger) is a commission-free, house-banked Pai Gow poker-based game using a standard 52-card deck and a Joker. The Joker is semi-wild; it is used as an Ace or to complete a Straight, Flush, or Straight Flush. Unlike standard Pai Gow, players do not receive their own hand, but instead wager on two community hands, either *Dragon* or *Tiger*, that are set by the dealer based on house ways. Rules pertaining to standard Pai Gow Poker, listed on the WSGC website, are followed except as noted in these rules of play. The object of the game is for the players' selected/wagered hand to have a winning outcome. *Dragon vs. Tiger* also contains optional bonus wagers that are not dependent on the base game's outcome.

Casino operators choose which bonus wagers they will offer, subject to any restrictions contained within these Rules of Play. Each bonus wager may be made at the player's option and there is no effect on the primary game and no changes in player strategy. Minimum and maximum wagering limits are established by the casino operator in accordance with the limits set in WAC 230-15-040, WAC 230-15-140, or their specific regulatory body.

Rules of Play

1. To begin each round, each player must place a *War* wager on either the *Dragon* or *Tiger* hand and may place any of the available optional bonus wagers.
2. After all wagers are placed, seven cards are dealt facedown to the *Dragon* hand and to the *Tiger* hand on their respective spots on the layout.
3. The dealer then sets each hand into a 2-card low hand and a 5-card high hand, according to the house way, and place them faceup in their designated spots on the layout. Each hand's high hand must be of greater value than its low hand. The house way must be documented in the licensee's internal controls.
4. Once the *Dragon* and *Tiger* hands have been set, the dealer will compare each side's respective hands: the *Dragon* high hand to the *Tiger* high hand and the *Dragon* low hand to the *Tiger* low hand. The *War* wager is reconciled as follows:
 - a. If **both** hands (high and low) of the player's wagered side **beat** the other side's respective hands, their *War* wager wins and is paid 1 to 1.
 - b. If the **high hands tie**, all *War* wagers win and are paid 1 to 1.
 - c. If the **low hands tie**, all *War* wagers are lost.
 - i. Note that a **high hand tie takes precedence**, so that if both the high hands and low hands tie, all *War* wagers win and are paid 1 to 1.
 - d. If **one hand** of the player's wagered side **beats** the other side's respective hand and the **other hand loses** to the other side's respective hand, their *War* wager is pushed.
 - e. If **both** hands of the player's wagered side **lose** to the other side's respective hands, their *War* wager is lost.
5. The dealer reconciles all optional bonus wagers.

Equipment

This game will use the Galaxy Gaming owned Andromeda Bonus Jackpot System Series 3d or higher. Jackpot meter displays will not contain additional intelligence or functionality, including but not limited to network capability, wired or wireless.

If operators use an automatic shuffle machine, it must be a WSGC approved model, manufactured by a WSGC licensed manufacturer.

Gambling Promotions

A gambling promotion may be added to any of the bonus wagers at the discretion of the casino operator and with the written consent of Galaxy Gaming.

Optional Bonus Wagers

Push or Tie

Players win if the high and/or low hands tie or if the *War* wager is a push. Wins are paid based on the corresponding payable in Appendix A.

Monster Bonus (Felt)

Players may wager on *Monster Bonus Dragon*, *Monster Bonus Tiger*, or both. The wager wins if the selected 7-card hand achieves a winning event based on the corresponding payable(s) in Appendix B.

Pai Gow Insurance

Players may wager on *Pai Gow Insurance Dragon*, *Pai Gow Insurance Tiger*, or both. The wager wins if the selected 7-card hand is a Pai Gow and is paid based on the corresponding payable(s) in Appendix C.

Emperor's Treasure (with Envy Bonus)

Players may wager on *Emperor's Treasure Dragon*, *Emperor's Treasure Tiger*, or both. The wager wins if the selected 7-card hand achieves a winning event based on the corresponding payable(s) in Appendix D.

Envy Bonus

If the player's *Emperor's Treasure Dragon* and/or *Tiger* wager is \$5 or more, designated lammer(s) are placed directly adjacent to the respective *Emperor's Treasure* wager(s), indicating that the player is eligible to **receive *Envy Bonus*** pays if another player at the table achieves a Four-of-a-Kind or better **on the respective wager**, based on the corresponding *Envy Bonus* payable(s) in Appendix D. Players cannot win an *Envy Bonus* on their own hand.

House and Progressive Jackpots

- Operators may choose to offer up to two jackpot game options on a layout using two independent wagering sensors and displaying two independent jackpot amounts
- Each jackpot sensor is considered a separate game
- Progressive Jackpots cannot be linked with House Jackpots
- All jackpots on a table must be of a single jackpot type (House or Progressive)
- Operators can only offer one jackpot game option per sensor

Monster Bonus House or Progressive Jackpot

Players may wager on *Monster Bonus Dragon Jackpot*, *Monster Bonus Tiger Jackpot*, or both. The wager wins if the selected 7-card hand achieves a winning event based on the corresponding payable(s) in Appendix E.

House or Progressive Jackpot Definition

If operated as a **House Jackpot** (also called a **Bonus Jackpot**), the table display does not increment after each wager is placed. All House Jackpot displays must include the following language: “House Jackpot prizes are paid by the casino and are not components of any progressive prize contest. Player wagers do not accrue to any guaranteed player fund. The displayed House Jackpot prize may be modified or discontinued at any time without prior notice.”

If operated as a **Progressive Jackpot**, the table display should increment after each wager is placed. Casino operators must follow the rules contained in WAC 230-15-680 through WAC 230-15-720. Prizes displayed are considered to be held in escrow by the casino operator who acts as the custodian of the funds for the benefit of the players. Operators offering progressive jackpots must: (1) Ensure specific wager limits on progressive wagers to ensure all funds are accounted for; and (2) Maintain and account for all funds collected for progressive jackpot games.

The operator’s internal controls must define how the Jackpots are configured and how they are won and if operated as a house or a progressive game.
