We have reviewed the changes to the games noted above. Based on our review of the documentation we received from Light and Wonder, the Washington State Gambling Commission will approve the games under the conditions listed below:

- The games shall be played and operated under the terms and conditions set forth under the game rules you provided on May 5, 2023 and June 5, 2023 and are enclosed.

### **Commercial Card Rooms**

- Commercial card room operators seeking to operate any of these games must first submit their internal controls and receive approval from the Commission prior to implementing.
- Manufacturers and distributors of graphic layouts and/or any other equipment associated with these games must be licensed by the state prior to the sale of the equipment.

### **Tribal Casinos**

- Each Tribal Gaming Operation must request and obtain approval from their respective Tribal Gaming Agencies (TGA).
- Before TGA allows your games to operate, they will seek concurrence from our agency as well.

- In addition to your approved rules, the Tribal submission to us must include all supplemental information required by Tribal-State Compact Appendix A, Section 18.
- Manufacturers and distributors of graphic layouts and/or any other equipment associated with the game must be certified by the state and licensed by the Tribe prior to the sale of the equipment.

Any modifications to these games may affect this approval. If you have any questions on commercial implementation, please contact Jess Lohse at (206) 786-3530. If you have any questions on Tribal implementation, please contact Kelly Main at (206) 423-4260.

Thank you for your cooperation and willingness to comply with the gambling laws of Washington State.

Sincerely,

- *Free Bet Blackjack is a standard house-banked blackjack game but with optional wagers called Pot of Gold, Push 22 and Blazing 7's jackpot or TriLux Blackjack jackpot. Note: Card room operators may only choose one of the jackpot options to be incorporated with the game. All rules pertaining to standard blackjack as posted on the WSGC's website remain the same except as noted in the Rules of Play.*
- *Operator cannot allow wagering limits to exceed the authorized limits set out in WAC 230-15-040 and WAC 230-15-140.*
- *If the below game is to be hand dealt with or without a dealing shoe, dealers will shuffle according to house procedures. The dealer then follows the house dealing procedures. The dealer must comply with WAC 230-15-465. If any automatic shuffle machine is used in conjunction with this game, it must be a WSGC approved model, manufactured by a WSGC licensed manufacturer.*

## RULES OF PLAY

Free Bet Blackjack is a variation of the standard game of blackjack. Free Bet Blackjack offers an optional Pot of Gold, Push 22 and Blazing 7's jackpot wager. To receive cards you must make the standard blackjack wager. To play against the Pot of Gold payable you must also make the Pot of Gold wager. Both the standard and Pot of Gold wagers must be made prior to receiving cards.

Equipment needed: Casinos must use "Free Bet" lammers, which indicate when a player has opted to take a "free double" or a "free split."

Free Bet Blackjack follows the basic rules of standard blackjack ("21"), with the following features:

- "Free" double-down on first two-card hard total of 9, 10, or 11
- "Free" splits on all pairs except 10 value cards (10-10, J-J, Q-Q or K-K)
- "Free" double-down allowed after split or "free" split (following standard Free BetBJ rules)
- "Free" re-splits allowed up to four hands (following standard Free Bet BJ rules)
- All normal splits allowed
- Regular doubles allowed on two-card hands
- Dealer pushes on 22
- Dealer hits on soft-17
- Blackjack pays 3-to-2
- 6 or 8 deck shoe
- No late surrender

If a player makes a Push 22 bonus wager and they bust their original blackjack hand, the dealer must leave the player's cards on the table until the Push 22 wager is reconciled.

### **FREE SPLIT\***

Players may split any pairs except 10 value cards (10-10, J-J, Q-Q or K-K) without making an additional wager. The dealer will place a "Free Bet" lammer to the right (dealer's view) of the player's original bet and deal the game normally. There are three possible outcomes:

1. The player beats the dealer.
  - a. The dealer will pay the player for his original bet and an equivalent amount for his free split. If the player has made a Pot of Gold wager, the lammer would be moved by the dealer to a spot in front of the player's Pot of Gold wager. If the player didn't make the Pot of Gold wager, the dealer would collect the lammer.
2. The player loses to the dealer.
  - a. The dealer will collect the player's original bet. If the player has made a Pot of Gold wager, the lammer would be moved by the dealer to a spot in front of the player's Pot of Gold wager. If the player didn't make the Pot of Gold wager, the dealer would collect the lammer.
3. The player and the dealer tie.
  - a. The dealer will push the player's original bet. If the player has made a Pot of Gold wager, the lammer would be moved by the dealer to a spot in front of the player's Pot of Gold wager. If the player didn't make the Pot of Gold wager, the dealer would collect the lammer.

NOTE: If the player busts out of the hand with the original bet, the dealer will place the original hand face down and place the bet on top it. The dealer will collect that bet at the end of the round. If split or re-split hands with Free Bet lammers win, the dealer will pay each lammer the value of the original bet.

Free re-splitting up to four hands is allowed.

If a player wants to take advantage of the Free Split, they hold out two fingers face down next to their original Blackjack wager to signify they want the Free Split.

Each split hand is won or lost on its own merit (Ex., player can lose original bet on first split hand and still win on the second or more free split hands.)

### **FREE DOUBLE\***

Players may double a two-card hard count of 9, 10 or 11 without making an additional wager. The dealer will place a "Free Bet" lammer to the right (dealer's view) of the player's original bet and deal the game normally. There are three possible outcomes:

1. The player beats the dealer.
  - a. The dealer will pay the player for their original bet and an equivalent amount for their free double. If the player has made a Pot of Gold wager, the lammer would be moved by the dealer to a spot in front of the player's Pot of Gold wager. If the player didn't make the Pot of Gold wager, the dealer would collect the lammer.
2. The player loses to the dealer.
  - a. The dealer will collect the player's original bet. If the player has made a Pot of Gold wager, the lammer would be moved by the dealer to a spot in front of the player's Pot of Gold wager. If the player didn't make the Pot of Gold wager, the dealer would collect the lammer.
3. The player and the dealer tie.
  - a. The dealer will push the player's original bet. If the player has made a Pot of Gold wager, the lammer would be moved by the dealer to a spot in front of the player's Pot of Gold wager. If the player didn't make the Pot of Gold wager, the dealer would collect the lammer.

Free doubling after splitting is allowed, provided the player's point total is a two card hard total of 9, 10 or 11.

If a player wants to take advantage of the Free Double, they point with their index finger next to their original Blackjack wager to signify they want the Free Double.

If the player makes a bet for the dealer, the dealer is also eligible for the Free Split and Free Double along with the player. The same game rules apply to the dealer's bet.

### **POT OF GOLD**

The Pot of Gold wager payouts are based on the total number of gold Free Bet markers the player collects for each individual blackjack hand. See payouts for odds.

Note: All Pot of Gold wagers lose to a dealer blackjack. PUSH 22

If the dealer busts with a point total of 22, all player blackjack bets in action are pushes.

The Push 22 bonus wager wins if the dealer busts with a total of 22, and the player's hand does not exceed a point total of 21. See payout sign for odds.

Note: Player blackjacks are paid before the dealer hits out their hand, so they are not affected by the Push 22 rule. In the event that all players' hands bust or have Blackjacks, the dealer will draw cards in order to settle the Push 22 wager.

## PROGRESSIVE SYSTEMS FLEXIBILITY and RECOMMENDATIONS:

- Progressive meter contribution
  - When using a pay table in which all payouts are deducted from the meter, we recommend utilizing the system to configure meter contribution rates anywhere between 0-100%.
    - Most pay tables with this style of math are designed to grow over time when a contribution rate of 70% or more is used. If less is contributed, the risk of the meter “running dry” increases.
  - When using a pay table in which only the progressive (percentage) pays are deducted from the meter, we recommend only reducing the pre-configured meter contribution rate if any changes are made. Adjusting the contribution rate above the pre-configured value would reduce the mathematical house advantage of the wager.
- Reserve contribution
  - We recommend contributing a small portion of each progressive wager to the reserve. This amount will be added on to any configured seed amount after a 100% award is given, and will help reduce the drop in play expected after a jackpot hits.
  - We do not recommend eliminating a seed amount entirely and using the reserve as the only seed mechanism. All games present a certain likelihood of back-to-back awards, and this method runs the risk of restarting the meter at a very low amount in that case.
- Seed amount
  - We recommend using the pre-configured seed amount in the system. This amount is specific to the pay table selected for use, and is designed to offer a reasonable starting point that works with the pay table’s math.
  - If any changes are made, we recommend the seed amount to be at least as large as the largest “fixed” award on the pay table.
  - We do not recommend configuring a \$0 seed amount.

## Player's Cards Only

- Blazing 7's jackpot is an optional jackpot wager for house-banked blackjack games in which one common jackpot can be used with the following WSGC approved game titles:
  - Bet the Set
  - Free Bet Blackjack
  - House Money
  - Kings Bounty
  - Royal Match
  - TriLux Blackjack
  - Zappit Blackjack
- All rules pertaining to standard blackjack and approved blackjack variation games as posted on the WSGC's website remain the same and are not altered in this game. If linking multiple blackjack games, the same payable and the same number of decks must be used between all linked games. This game uses a minimum of six decks.
- Operators cannot allow wagering limits to exceed the authorized limits set out in WAC230-15-040 and WAC 230-15-140.
- This game will use the approved LNW Gaming, Inc owned jackpot system Nexus Command Game Manager 2 v2.5.4 or higher and a jackpot display. Also, GM Atlas v5.4.0/Nexus Command II v5.4 or higher. The jackpot display can either be provided by LNW Gaming, Inc or the operator.
- The jackpot display should be a table mounted monitor with no additional intelligence or functionality, including but not limited to network capability (wired or wireless). This non-intelligent monitor can either be provided by LNW Gaming, Inc or the operator so long as it does not introduce any additional functionality.

### **House Jackpot and Progressive Jackpots**

- Operators may choose to offer up to two jackpot game options on a layout using two independent wagering sensors and displaying two independent jackpot amounts.
- Each jackpot sensor is considered a separate game.
- Progressive Jackpots cannot be linked with House Jackpots.
- All jackpots on a table must be of a single jackpot type (House Jackpot or Jackpot).
- Operators can only offer one jackpot game option per sensor.
- When operated as a house jackpot, the jackpot amount is at the discretion of the casino. Prizes are set by the casino and are required to be displayed at each gaming table. Prizes displayed are considered property of the casino until won by one or more players. The casino must post all required notices and disclosures at each table and follow all rules for house jackpots in WAC 230-15-671.
- When operated as a progressive jackpot, rules for progressive jackpot prizes are contained within WAC 230-15-680 through WAC 230-15-720.

### **Blazing 7's Jackpot Rules of Play (Players Card Only)**

1. Blazing 7's jackpot is an optional jackpot wager for blackjack.
2. Players must make a standard blackjack bet in order to make a Blazing 7's jackpot wager.
3. The Blazing 7's jackpot considers the player's hand only. If the player does not have at least one 7 in the player's initial two cards, the jackpot bet will lose.
4. To begin each round, players must make their standard blackjack wager. They may also place an optional jackpot wager. Players must place the jackpot wagers on the sensor in front of their betting position. The sensor will light up.
5. Once all players place their bets, the dealer will press "START GAME" on the keypad. The sensors will then light up, indicating a jackpot wager. The dealer will remove all jackpot wagers on the table.
6. The dealer will then follow standard dealing procedures for blackjack.
7. The player's Blazing 7's wager will win if the player has any 7's in their initial two cards. (see payable)
8. If the player has two 7's in the first two cards and their first hit card is also a 7, the player will qualify for one of the Three 7's payouts.
  - a. Note: The "Two 7's" payout is based upon the player's first two cards only.
9. If the player receives two 7's in their first two cards and chooses to split, the jackpot payout will be based on the third card dealt to that player.
10. If the player busts, the bust card does NOT count toward the player's Blazing 7's Prog. bet.
  - a. The dealer will pick up the player's losing primary wager first, then pay the jackpot wager, pick up the cards, and continue dealing.
11. After the dealer has completed their hand, the dealer will pay and take player's hands as follows.
  - a. Working from right to left pay or take primary wager first.
  - b. Pay the jackpot wager if applicable.
12. Once all bets have been reconciled the dealer will hit "END GAME."
13. Jackpot Winner:
  - a. The percentage pays are paid from the jackpot shown on the jackpot meter.
  - b. Other hands are paid from the chip tray; they do not come off the meter.
  - c. In the event more than one jackpot meter pay hits during the same round, the dealer will first pay the player farthest on their right and then move counter- clockwise to pay other players. As Regulatory procedures permit, this policy can be replaced by casino internal controls.
  - d. When a player has a jackpot winner, the dealer will select the player spot corresponding to the player with the winning jackpot hand. The dealer will then press the appropriate hand button on the display. (If the hand button is pressed by accident, pressing it again will turn it off.)
  - e. The dealer shall then contact a supervisor.
  - f. Once the casino verifies the jackpot win, the supervisor will press the confirm button. To complete the action, a Supervisor or Executive card (depending on jackpot level) swipe is required. This records the win onto the Game Manager computer and adjusts the meter appropriately for the prize won. House procedures are then followed for paying the prize.
  - g. When the dealer reconciles all action, he presses "END GAME." This resets the system to begin the next hand.
  - h. Once the Supervisor or Executive card (depending on the jackpot level) is swiped the prize is logged into the Game Manager. If the jackpot pay needs to be backed out at this point, the award will need to be manually backed out using the Game Manager manual adjustment feature.

  - TriLux Blackjack
  - Zappit Blackjack
- All rules pertaining to the standard non-patented game of blackjack and approved blackjack variation games as posted on the WSGC website remain the same and are not altered in this game. If linking multiple blackjack games, the same paytable and the same number of decks must be used between all linked games. This game uses six or eight decks.
- Operators cannot allow wagering limits to exceed the authorized limits set out in WAC 230-15-040 and WAC 230-15-140.
- This game will use the approved LNW Gaming, Inc owned jackpot system Nexus Command Game Manager 2 v2.5.4 or higher and a jackpot display. Also, GM Atlas v5.4.0/Nexus Command II v5.4 or higher. The jackpot display can either be provided by LNW Gaming, Inc or the operator.
- The jackpot display should be a table mounted monitor with no additional intelligence or functionality, including but not limited to network capability (wired or wireless). This non-intelligent monitor can either be provided by LNW Gaming, Inc or the operator so long as it does not introduce any additional functionality.
- If the below game is to be hand dealt using a dealing shoe, dealers will shuffle according to house procedures. The dealer then follows the house dealing procedures. The dealer must comply with WAC 230-15-465. If any automatic shuffle machine is used in conjunction with this game, it must be a WSGC approved model, manufactured by a WSGC licensed manufacturer.

**Trilux Blackjack Jackpot Rules of Play**

1. TriLux Blackjack offers an optional jackpot wager.
2. All percentage and odds pays consider both the player's first two cards, and dealer's up- card ONLY.
3. Paytables are listed separately.
4. The meter will be reseeded when the 100% award hits. The cost of the reseed has been factored into the casino's mathematical advantage.
5. To begin each round, players must make their regular game's wager. They may optionally place any of the offered bonus and jackpot wagers. Players must place the jackpot wagers on the sensor in front of their betting position. The sensor will light up.
6. Once all players place their bets, the dealer will press "START GAME" on the keypad. The sensors will then light up, indicating a jackpot wager. The dealer will leave all jackpot bets on the table.
7. The dealer then follows house procedures for dispensing the starting cards to all participating player's and themselves.
8. After each participating player has received their first two starting cards and the dealer has revealed their up-card, the jackpot wagers can be resolved. The dealer will follow the procedure in the next section for reconciling percentage pays from the jackpot meter.
9. Jackpot winners:
  - a. The percentage pays are paid from the jackpot shown on the jackpot meter. Note: Fixed pay awards are paid from the tray; they do not come off the meter.
  - b. In the event more than one jackpot meter pay hits during the same round, the dealer will first pay the player farthest on the right and then move counter-clockwise to pay other players. As regulatory procedures permit, this policy can be replaced by casino internal controls.
  - c. When a player has a jackpot winner, the dealer will select the player spot corresponding to the player with the winning jackpot hand. The dealer will then press the appropriate hand button on the display. (If the hand button is pressed by accident, pressing it again will turn it off.)
  - d. The dealer shall then contact a supervisor.
  - e. Once the casino verifies the jackpot win, the supervisor will press the confirm button. To complete the action, a Supervisor or Executive card (depending on jackpot level) swipe is required. This records the win onto the Game Manager computer and adjusts the meter appropriately for the prize won. House procedures are then followed for paying the prize. (Reviewing the monitor connected to the Game Manager will show the prize amount to be paid, and pressing the "money bag" icon will print a win page, which can be used to help record the payout for accounting.)
  - f. Once the dealer has reconciled all action, they press "END GAME." This resets the system to begin the next hand.
  - g. Once the Supervisor or Executive card (depending on jackpot level) is swiped the prize is logged into Game Manager. If the jackpot pay needs to be backed out at this point, the award will need to be manually backed out using the Game Manager manual adjustment feature.
10. Once the jackpot wagers have been resolved and the dealer has pressed "END GAME" standard blackjack can resume per house rules.

### **House Jackpot and Progressive Jackpots**

- Operators may choose to offer up to two jackpot game options on a layout using two independent wagering sensors and displaying two independent jackpot amounts.
- Each jackpot sensor is considered a separate game.
- Progressive Jackpots cannot be linked with House Jackpots.
- All jackpots on a table must be of a single jackpot type (House Jackpot or Jackpot).
- Operators can only offer one jackpot game option per sensor.
- When operated as a house jackpot, the jackpot amount is at the discretion of the casino. Prizes are set by the casino and are required to be displayed at each gaming table. Prizes displayed are considered property of the casino until won by one or more players. The casino must post all required notices and disclosures at each table and follow all rules for house jackpots in WAC 230-15-671.
- When operated as a progressive jackpot, rules for progressive jackpot prizes are contained within WAC 230-15-680 through WAC 230-15-720.

## TriLux Blackjack Jackpot

Paytable 6	
Hand	Pays*
Three Aces (Suited)	100%
Three of a Kind (Suited)	125 for 1
Straight Flush	25 for 1
Three of a Kind (Offsuit)	20 for 1
Straight	7 for 1
Flush	5 for 1
*Original wager NOT returned	

Designed for 6 and 8 decks

- All settings and pays, listed in the above pay tables, are based off a fixed \$1 wager. Card room operators may select a different fixed wager amount. If the Jackpot is configured with a different fixed wager amount, pays are multiplied accordingly and displayed on the meter.

## PROGRESSIVE SYSTEMS FLEXIBILITY and RECOMMENDATIONS:

- Progressive meter contribution
  - When using a pay table in which all payouts are deducted from the meter, we recommend utilizing the system to configure meter contribution rates anywhere between 0-100%.
    - Most pay tables with this style of math are designed to grow over time when a contribution rate of 70% or more is used. If less is contributed, the risk of the meter “running dry” increases.
  - When using a pay table in which only the progressive (percentage) pays are deducted from the meter, we recommend only reducing the pre-configured meter contribution rate if any changes are made. Adjusting the contribution rate above the pre-configured value would reduce the mathematical house advantage of the wager.
- Reserve contribution
  - We recommend contributing a small portion of each progressive wager to the reserve. This amount will be added on to any configured seed amount after a 100% award is given, and will help reduce the drop in play expected after a jackpot hits.
  - We do not recommend eliminating a seed amount entirely and using the reserve as the only seed mechanism. All games present a certain likelihood of back-to-back awards, and this method runs the risk of restarting the meter at a very low amount in that case.
- Seed amount
  - We recommend using the pre-configured seed amount in the system. This amount is specific to the pay table selected for use, and is designed to offer a reasonable starting point that works with the pay table’s math.
  - If any changes are made, we recommend the seed amount to be at least as large as the largest “fixed” award on the pay table.
  - We do not recommend configuring a \$0 seed amount.
