## Amendment Disapproval

## United States Department of the Interior

OFFICE OF THE SECRETARY  
Washington, DC 20240

JUL 24 2024

The Honorable Jay Inslee  
Governor, State of Washington  
Olympia, Washington 98504

Dear Governor Inslee:

On June 10, 2024, the Office of Indian Gaming received the Fifth Amendment (Amendment) to the Tribal-State Compact for Class III Gaming Between the Stillaguamish Tribe of Indians (Tribe) and the State of Washington (State) for review and approval. The Amendment adds a new Appendix G, Electronic Table Games (ETG), and amends relevant provisions in the compact to reflect the changes. The Amendment also increases the Tribe's required community and problem gambling contributions.

...

### Conclusion

As a result, I conclude that the proposed modifications to Sections 9 and 10.1 of Appendix G violate IGRA and the Department's regulations because together they provide for increased Tribal payment obligations absent any meaningful concessions by the State. Therefore, pursuant to my delegated authority and Section 11 of IGRA, I am disapproving the Amendment. See 25 U.S.C. § 2170(d)(8)(B)(i-iii).

I regret that my decision could not be more favorable at this time and hope that the Tribe and the State will recognize that the revenue sharing provisions in the Amendment without meaningful concessions are prohibited in a Tribal-State Compact. A similar letter is being sent to the Honorable Eric White Chairman, Stillaguamish Tribe of Indians.

Sincerely,

Bryan Newland  
Assistant Secretary – Indian Affairs

# Disapproved Sections

## SECTION 9. COMMUNITY CONTRIBUTIONS

“Net Win from Gaming Stations” as used in Section III.F of the Compact shall include Net Win from ETGs.

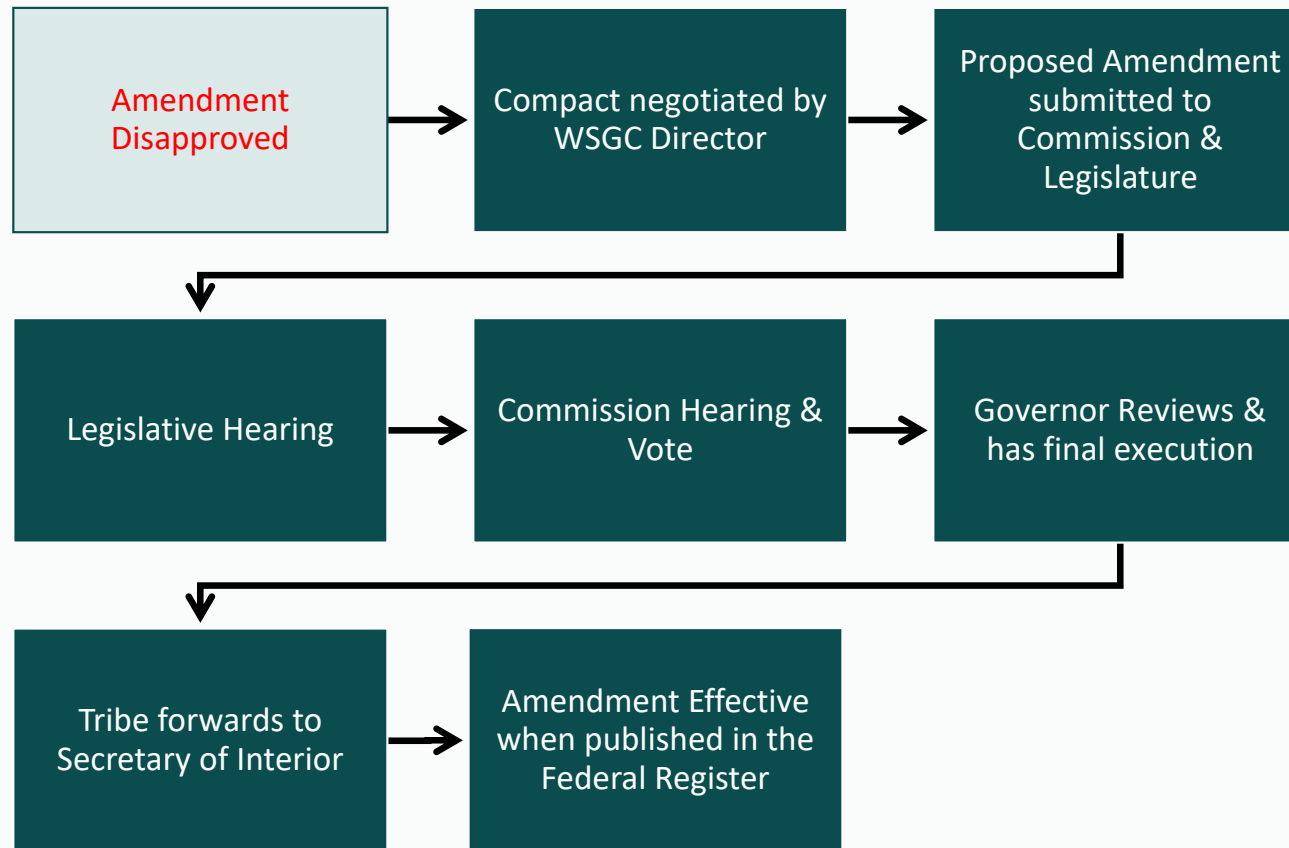

## SECTION 10. PROBLEM AND RESPONSIBLE GAMING

### 10.1 Monetary Contribution.

**Problem Gambling.** The Tribe shall contribute an amount as described below to programs for problem gambling education, awareness, prevention, and treatment for tribal and non-tribal citizens in the State of Washington. Contributions shall be made to charitable and/or non-profit organizations, or to governmental organizations which may include the Health Care Authority’s Division of Behavioral Health and Recovery or a successor agency with expertise in providing awareness, prevention, education, outreach, treatment, and recovery support services for problem gambling. Beginning on the Implementation Date and until June 30, 2024, the Tribe shall accrue 0.20 percent (0.2%) of the net win derived from all Class III gaming activities, determined on an annual basis. Beginning on July 1, 2024, and subsequent fiscal years, the Tribe shall accrue 0.26 percent (0.26%). The percent of net win accrued shall be paid annually within one year of the close of the Tribe’s fiscal year.

# Gaming Compact Amendment Approval Process

# Summary of Compact Changes - Unchanged

## Electronic Table Games:

- Does not allow “play against the machine”
- Played consistent with traditional table game
- Nine (9) ETG stations = 1 traditional table
- Wager limits = \$500
- Played with an electronic wagering system
- Joint TGA & SGA field testing

# Summary of Compact Updates

- Removed increase to Problem & Responsible Gaming funding
- Acknowledged the Gaming Facility’s website – includes self-barring request form
- Added responsible gambling information to cashier stations, entrances/exits, kiosks, and ETG terminals
- Added responsible gambling information on Class III gaming materials
- Removed smoking cessation provision from Appendix X2
- Added “air quality” to clarify importance with International Building Code.

## STILLAGUAMISH TRIBE OF INDIANS

"The Stillaguamish Tribe looks forward to our continued collaboration and partnership with the Washington State Gaming Commission. This relationship underscores a mutual commitment to fostering a sustainable gaming environment that benefits all stakeholders while honoring the Stillaguamish people's cultural heritage and economic aspirations. Together, we aim to set a standard for responsible gaming practices that can serve as a model for others."

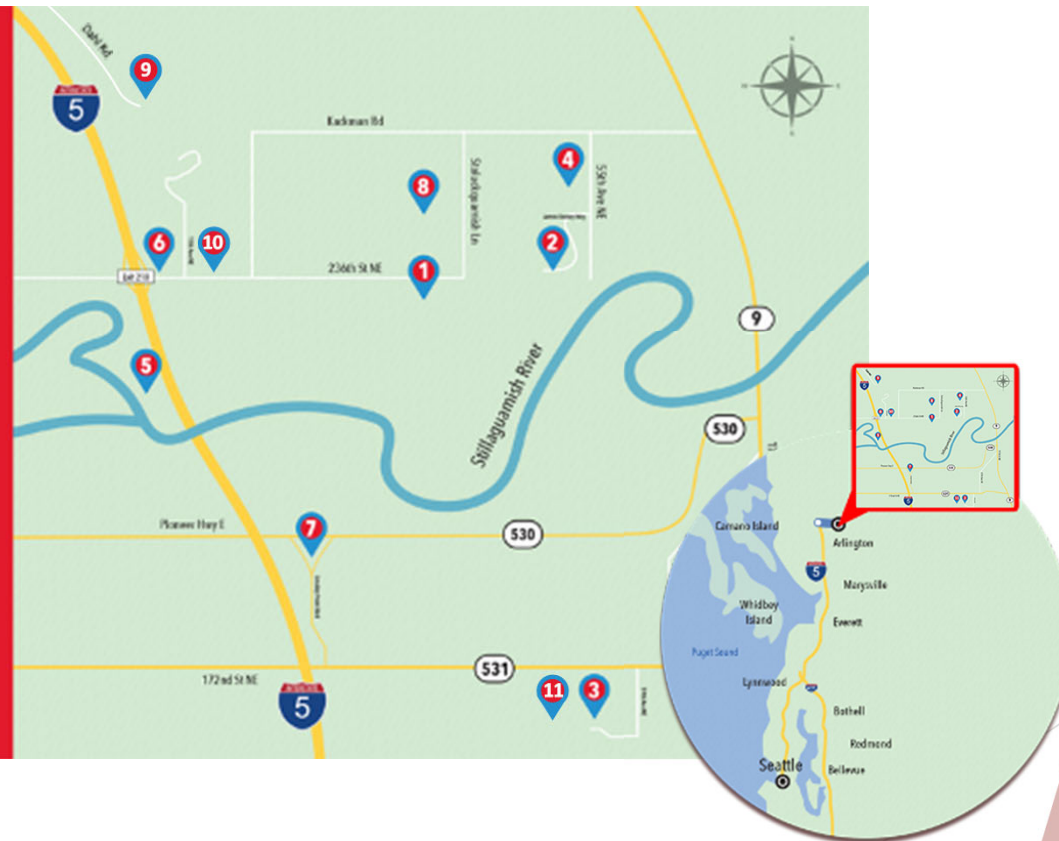

CHAIRMAN, ERIC WHITE

- ▶ Police Department
  - ▶ Provides security and resources for the Tribal community and Tribal enterprises

# TRIBAL ADMINISTRATION

## ▶ **Housing Department**

▶ In 2016 the Tribe, with its Tribal citizens, went through a series of hands-on interactive workshops to envision a new Stillaguamish Village. Based on the workshops, a final master site plan was developed. This project was fully Tribal funded without the use of grants. In addition to the 15 housing units created within the Stillaguamish Village, the Tribe has 49 additional scattered site homes that are fully Tribal funded and subsidized through Tribal hard dollars.

▶ **Canoe House-Carving Shed** – This building provides a space to engage in our canoe and carving practices. The Tribe's carvers host classes such as tool making, canoe building, totem pole carvings, carving art. The canoe family gathers here for training and social events, as well as stores their canoes in this location.

▶ **Holistic Healing Center** – This building hosts the Tribe's health practitioners, such as family practice doctors, mental health counselors, and massage therapists. This building also has a community room, which is open for community-based gatherings, such as weaving, cooking, and language classes.

▶ **Elders Campus** – The Elders Campus is comprised of six units: the elders longhouse, four elders cottages, and the elders park. These units are all ADA compliant, highly energy efficient, and come with a whole house generator to assist during power outages. The Tribe subsidizes elders' rent through Tribal hard dollars.

▶ **Single Family Homes** – There are currently five single family homes that sit along a neighborhood park. Families that live in these units pay no more than 20% of their adjusted income on rent. The Tribe subsidizes rent through Tribal hard dollars.

▶ **Playground Park** – The playground includes elements that have been designed with a nice touch of nature play, including a log jam concept inspired by the traditional stick game that includes large slahal sticks made from logs. Our Tribal carvers built a beautiful dugout canoe as a play element. The park includes a public restroom.

# STILLAGUAMISH HEALTH CLINIC

- ▶ Open to Stillaguamish Tribal members and their families, other enrolled Native Americans, and Tribal employees
- ▶ Massage Therapy Clinic
  - ▶ Restores clients' health and wellbeing through massage therapy and bodywork

# QwəLÚT HEALING CENTER

- ▶ Assists the community to improve individual functioning and elevate the quality of life for all
- ▶ Behavioral Health Programs
  - ▶ Offers Substance Use Disorder (SUD) treatment and mental health services
  - ▶ Approximately 750 patients served in 2023
- ▶ Island Crossing Counseling Services
  - ▶ Assists the community to achieve a lifestyle of sobriety and health

# COMMUNITY CENTER

- ▶ Located in the middle of the Tribal Housing Community
- ▶ Houses the Tribe's Daycare, part of the Cultural Department, Youth Services and Kitchen
- ▶ Youth Services
  - ▶ Goal is to make getting an education as accessible as possible
- ▶ Open and available to Stillaguamish citizens
- ▶ Cultural events, funerals, Summer Youth Program

# NATURAL RESOURCES BUILDING

- ▶ Created in 1974 due to the Boldt Decision
- ▶ Manages, protects, and conserves the natural resources that are required to sustain healthy populations of fish, shellfish, and wildlife within the Stillaguamish Tribe's usual and accustomed areas (Stillaguamish watershed)

The Stillaguamish Tribe's Natural Resources Department focuses on protecting, enhancing, and restoring important treaty resources that are co-managed with other Treaty Tribes and the State of Washington. The Tribe's Natural Resources Department is home to 4 separate programs which include: Fisheries, Wildlife, Water Quality, and Environmental Restoration & Stewardship.

The work the Natural Resources Department is able to achieve through shared State and Tribal economic success and partnerships helps ensure greater climate resiliency and environmental stewardship for *all* Washingtonians.

#### **Some key examples of this work includes:**

Two Tribally Owned/Operated Hatcheries that produce ESA listed populations of Stillaguamish Chinook. The fish released from these hatcheries are genetically indistinct from their wild cohorts, and are produced solely to stave off extinction, while also serving as scientific indicators of where harvest impacts are hitting our salmon resources the hardest. Due to the co-management relationship between the Stillaguamish Tribe and state agencies like Washington Department of Fish and Wildlife (WDFW), we can responsibly manage salmon fisheries in Washington State, and work together to mitigate impacts on our stocks from northern fisheries in Canada and Alaska.

The Stillaguamish Tribe and WDFW have worked together over the past few years to invest over \$5.3 Million dollars in completing 318 acres of wetland connectivity work, opening up a combined total of 7.3 miles of tidal channels that will improve climate resiliency, and provide refuge and nursery habitat to ESA listed salmon populations in Port Susan Bay.

# 236<sup>TH</sup> ST NE SAFETY IMPROVEMENTS

## Stillaguamish Tribe Completes 236th St NE Safety Improvements Project

- ▶ The Stillaguamish Tribe of Indians finished the 236th St NE Safety Improvements Project in September 2022. This project enhanced safety and environmental features along the roadway between 13th Ave NE and 35th Ave NE in Snohomish County.
  
- ▶ **Key improvements include:**
  - Wider shoulders and improved sight lines
  - Roundabout at the 19th Avenue intersection
  - Replaced fish barrier with a wildlife crossing
  - Raised roadway with new culverts for better water flow and animal passage
  - Stormwater management ponds
  - New sidewalks, curbs, and pavement markings
  
- ▶ Construction techniques minimized road closures, and detours were used when necessary. Access to homes and businesses remained open throughout the project.

## **Centennial Accord**

Chair Levy and staff attended the 35<sup>th</sup> Annual Centennial Accord on September 20, 2024, at the Suquamish Tribe's House of the Awakened Culture or virtually. The agency's 2024 Centennial Accord highlights are attached.

The Centennial Accord Agreement is a government-to-government agreement between the State of Washington and signatory Tribes. It was signed by Governor Booth Gardner and tribal leaders on August 4, 1989, was reaffirmed in 1999 by Governor Gary Locke and underscores the State and Tribes' commitment to implementation of government-to-government relationships for the purpose of strengthening those and to jointly resolve policy and protocol issues of mutual concern. The Accord affirms the sovereignty of the tribes and calls for better communication and collaboration between the state and tribal governments<sup>134</sup>. It was the first agreement of its kind in the nation.

## **Celebrating Staff's Public Service**

The agency is proud of staff's longevity with the agency and the state. 51% of our staff have 15+ years of state service compared to 23% statewide employee average. As for agency service, 45% of our employees have 15+ years of agency service.

In 2024, we celebrate several staff's state and agency milestones as follows:

Years of Service	# of Staff Celebrating Service with the:	
	State	Agency
45	1	-
35	3	2
30	2	3
25	3	3
20	1	1
15	3	2
10	1	-
5	4	3

While we've talked about our numerous vacant positions the last few years, we have hired many people. We currently have 41 employees with 0-5 years of agency service and 9 with 6-10 years of service. As for state service, we have 33 employees with less than 5 years of state service and 11 employees with 6-10 years of state service.

### **Polaris Update**

In mid-September we contracted with an implementor, MERP, and decided on a product, Dynamics 365 (a Microsoft product) to replace our legacy external portal (My Account), licensing, case reporting, timekeeping, and billing systems.

In mid-October, MERP spent four days in Lacey with staff to launch the Discovery phase of the project. This phase will go through January 14, 2025. During this phase, MERP will gain a better understanding of the project, determine what can be developed out-of-the-box vs customization. They will also be able to verify the implementation timeline, which is expected around the end of 2025 or early 2026.

The attached "Project Timelines & Milestones" outlines the implementation, development, user testing, and launch timelines. A more refined timeline will be developed after the Discovery phase. To facilitate a seamless implementation, we will need external users of My Account to test the software and provide valuable feedback before launch. In early 2025, we'll reach out to licensees, tribal partners, and other My Account users to support this critical piece of the development and implementation process.

## Summary

Our mission is to protect the public by ensuring that gambling is legal and honest, and to foster full cooperation between tribes and the state, based upon equality and a shared concern for the welfare of all the citizens of the state and tribes.

Of the 29 federally recognized tribes in Washington, 29 have compacts for Class III gaming and 23 of the tribes operate 29 casinos. 18 tribes offer sports wagering with four offering on-premises mobile. Four tribes operate the newly approved electronic table games.

## Highlights

We created two workgroups after consultation with tribal leaders. The electronic gambling lab (EGL) workgroup has met twice to discuss our agency's role in class III gaming equipment testing and approval. We shared how the EGL's role and work has changed since it began 1997, testing gaps we have identified with the nationwide independent testing labs, and our future plans to improve efficiency. We continue to meet to discuss testing gaps and how to resolve them. The budget and criminal investigative costs workgroup discussed agency costs, cost recovery, and proposed license fee increases that would impact the manufacturers and suppliers the tribes use to provide gambling equipment. We continue to meet to receive ideas and feedback on costs.

We met with tribal regulatory directors to address sports wagering issues and regulatory concerns related to electronic table games. We met separately with tribal regulatory licensing staff to discuss counterfeit currency identification, background investigations, and share roundtable discussions.

We mutually agreed to 11 amendments for: Electronic table games with nine tribes, high limit rooms and pits with three tribes; and clarification of smoking cessation provisions.

Our agency sends topic-specific informational notices and newsletters to our tribal partners. Our electronic gambling lab sends monthly newsletters to tribal regulator and gaming operations partners to share updates on new and ongoing equipment submissions, information on active investigations of equipment malfunctions, news or updates related to the agency, and answers to commonly asked questions. Our intelligence unit sent 34 bulletins to our tribal regulatory partners to inform and share information on various crimes and suspicious activity. Most of these bulletins were requests for assistance on pending criminal investigations. In addition, we send a monthly intelligence information summary to our tribal regulatory partners.

Our new agent training for gaming regulatory staff was held in partnership with the Stillaguamish Tribal Gaming Commission. Our weeklong training course was attended by over 30 students and covered tribal and gaming history and class III gaming activity regulation in Washington. We also provided technical gaming equipment and vendor licensing training for individual tribal regulators at their request.

We met with several tribes to discuss changes in processing licensing applications, providing eligibility and registration information, and practical training on submitting application information on-line.

As part of our co-regulatory relationship with the tribes, and to improve operational efficiency and technology use, we jointly agreed to 32 clarifications of compact appendices and concurred with 375 internal control and game rule submissions.

**NOTE:** House-banked card room licensees must submit financial statements to the commission within 120 days after the end of their fiscal year. The financial statements include all gambling and non-gambling revenues and expenses of the licensee.

(1) Card Room Revenue is the gross revenue from the card room activity only. No other gambling activity revenues are included.

(2) Other Revenue is all revenues earned by the licensee other than from the card room, as defined above, less promotional allowances. This may include revenues from pull tabs, amusement games, food, beverage, and any other services/activities provided by the licensee.

(3) Total Expenses are all the expenses incurred by the licensee to operate their business during the fiscal year. Expenses may include such items as cost of sales or goods sold, advertising, wages, utilities, depreciation, interest expenses, taxes, and Federal Income Tax Provisions.

(4) Net loss may include impairment of goodwill and loss on disposal of discontinued operations; net income may include debt forgiveness and gain on deconsolidation.

(5) Average Net Income (Net Loss) of those reporting:

## Membership and Management

Seattle Junior Hockey Association (SJHA) has 38 active voting members, 7 Board of directors consisting of 4 Directors, a President, Vice President, and Secretary/Treasurer. 1 general membership meeting and 4 board member meetings were held during the fiscal year ending June 30, 2024.

## Active Licenses Issued by WSGC

Nonprofit Punchboard/Pull Tab	-License #05-02334	-Expires 12/31/2024
Raffle	-License #02-00875	-Expires 12/31/2024
Bingo	-License #01-01670	-Expires 12/31/2024

## Organizational Purpose and Services

SJHA was incorporated in the State of Washington as a non-profit organization in March of 1974. Their mission is to create transformational experiences for all players, coaches, and families through the game of hockey.

Services provided by SJHA include multiple youth hockey programs including beginner hockey, Late start, Girl's hockey (ages 10-18), Recreational hockey (ages 5-18), and Representative Hockey (travel team within the USA and Canada)

**Staff Findings**

During our review of SJHA, numerous steps were taken to ensure they are functioning in accordance with their bylaws and continue to meet the definition of a charitable or non-profit organization under RCW. This was done, in part, by reviewing board meeting minutes, program services, financial statements, internal controls, and payroll for reasonable wages, the use of funds, and assets and contracts for reasonableness. We verified their programs exist and are being supported.

No material discrepancies were noted during our review, and we determined SJHA is suitable for continued licensure.

# Anti-Money Laundering Commission Meeting

November 14, 2024

*Protect the public by ensuring that gambling is legal and honest*

# Bank Secrecy Act (BSA)

- Congress passed the BSA in 1970
- First laws to fight money laundering in the United States
- The BSA requires businesses to keep records and file reports that are determined to have a high degree of usefulness in criminal, tax, and regulatory matters
- BSA filings by businesses are heavily used by law enforcement agencies to identify, detect and deter money laundering whether it is in furtherance of a criminal enterprise, terrorism, tax evasion or other unlawful activity ([irs.gov](https://www.irs.gov))

# What is FinCEN (Financial Crimes Enforcement Network)

- FinCEN is a bureau of the U.S. Department of the Treasury
- FinCEN's mission is to safeguard the financial system from illicit use and combat money laundering and promote national security through the collection, analysis, and dissemination of financial intelligence and strategic use of financial authorities ([fincen.gov](http://fincen.gov))

# Title 31

- 31 CFR Chapter X (also known as Title 31) is the codified regulation for the BSA that gives FinCEN the authority to implement, administer, and enforce compliance with BSA regulations

# Anti-Money Laundering (AML)

Title 31 (BSA):

- Applies to casino/cardrooms with gross receipts greater than \$1 million
  - Designates them as a “Financial Institution”
- Reporting requirements:
  - Currency Transaction Reports (CTR’s) – Transactions greater than \$10,000
  - Suspicious Activity Reports (SAR’s) – Suspicious transactions greater than \$5,000
- Requires casinos to Know Their Customers (KYC)
- Develop and implement a written Anti-Money Laundering (AML) program

# AML Program

At a minimum, the program must have:

- Internal controls designed to prevent money laundering and ensure compliance with BSA
- Training of card room personnel
- Designation of anti-money laundering officer (AMLO)
- Procedures for using all available information to determine the name, address, SSN, and other information of a person; and to determine the occurrence of any transactions required to be reported as suspicious
- Provide for inclusion of automated programs to aid in assuring compliance

# Currency Transaction Reports (CTR's)

## Currency Transaction Report (CTR)

*['kər-ən(t)-sē tran-'zak-shən ri-'pòrt]*

A bank form used in the U.S. to help prevent money laundering.

 Investopedia

A CTR is a form card rooms must complete and send to FinCEN whenever a certain transaction or aggregate transactions involving either the cash-in or cash-out of more than \$10,000 in a single gaming day by, or on behalf of, any person

# Suspicious Activity Reports (SAR's)

- A SAR for suspicious transactions of at least \$5,000
- There can be one transaction or multiple aggregated transactions. The transaction(s) involves a possible violation of any law or regulation

# SAR's Cont.

SAR's are required to be completed when the card room knows, suspects, or has reason to suspect the following:

- Activity involves funds from illegal activity
- Activity is designed to hide assets derived from illegal activities
- Activity is to evade BSA requirements (e.g. structuring)
- There is no business or apparent lawful purpose
- Activity involves the use of the casino to facilitate criminal activity

# SAR's Cont.

## Examples:

- Exchanging many small bills for larger ones
- Regularly conducting currency transactions just below \$10,000
- Purchase chips, gamble minimally, and then cash out
- Using other patrons to cash out chips
- Supplying other patrons with cash to purchase chips
- Using ID that appears to be forged or altered
- Using the card room purely for its financial services

**Statutory Authority 9.46.070**

**Who Proposed the Rule Change?**

Washington State Gambling Commission Staff

**Background**

**BOLD = Changes made since September 2024 Commission Meeting**

At the November 2023 Commission meeting, Commissioners asked staff to work with stakeholders to determine if rulemaking could address recent stakeholder concerns regarding the minimum cash on hand requirements for house-banked card rooms.

Currently, our rules require house-banked card game licensees to have sufficient cash on hand to redeem all chips issued for play and pay out all prizes. Failure to keep funds to cash in chips, pay prizes, or redeem gambling related checks is prima facie evidence of fraud (WAC 230-15-050).

To ensure that house-banked card game licensees have sufficient cash on hand to redeem all chips for play and pay out all prizes, we require, by rule, house-banked card rooms to have a minimum amount of cash on hand based on a formula:

- At least \$1,000 for each house-banked table on the gambling floor, plus
- The amount of the largest single prize available, excluding progressive, player-supported, and house jackpot prizes.

Staff has found that the formula to calculate “sufficient cash on hand to redeem all chips issued for play and pay out all prizes” may not be adequate for all house-banked card game licensees. Rulemaking is needed to address staff’s concerns as follows:

- Some house-banked card rooms have had difficulty cashing out players’ chips at the cashier’s cage even though they met our minimum cash on hand requirements. These were cases where a player did not win a large prize, but were rather cashing out a large amount of chips from winning multiple smaller hands.
- It is rare for players to win large prizes in the tens of thousands of dollars at house-banked card rooms. Rather, general day to day operations in house-banked card rooms involves multiple players purchasing chips at tables and then redeeming chips at the cashier’s cage. Card rooms generally maintain cash in the cashier’s cage based on the volume of gambling in their facility, not based on the potential for someone to win a rare large prize.
- Consistency with other states. Other states minimum cash on hand requirements are based on volume of gambling, rather than a single large prize that may or may not be won. For example, the Nevada Gaming Control Board’s calculation for minimum cash on hand is a per table requirement plus 1% of gross gaming revenue (volume) from the last fiscal year. The National Indian Gaming Commission has the same calculation as Nevada for minimum cash on hand.

- In 2023, wager limits were increased from \$300 to \$400. Players are now able to buy more chips for play, and in turn, card rooms may have to redeem more chips at the cashier's cage. The minimum cash on hand formula should address this potential greater influx of gaming.
- The "*largest single prize*" offered by almost every card room in the state is an odds-based prize that has an aggregate payout limit attached to it according to WAC 230-15-490. For example, a card room that offers a game that has 8000-1 odds and \$400 wagering limits can limit the prize to \$20,000 according to WAC 230-15-490. The \$20,000 aggregated prize becomes the "*largest single prize*" according to the formula in WAC 230-15-050. This was the same "*largest single prize*" amount in 2008 when the wagering limits were only \$200.

Staff has also found that rules only allow house-banked card game licensees to write checks for progressive jackpots, player supported jackpots, and house jackpots. Current rules do not specifically authorize checks to be written for large odds-based and fixed-based prizes (e.g. the prizes in Masque's card game).

At the March 2024 commission meeting, Commissioners authorized initial rulemaking to amend WAC 230-15-050 and create new rules.

The proposed rules:

- Require card game licensees to exchange chips for cash unless the player requests payment by check;
- Changes the formula for determining the minimum amount of cash required to be in the cage, safe, and/or vault for house-banked card rooms;
- Allows for specific prizes to be paid by check; and
- Require house-banked card room licensees to have sufficient funds to pay fixed-based prizes offered.

At the May 2024 commission meeting, Commissioners discussed the proposed rules, altered the amended language for WAC 230-15-050(1), and authorized filing of the new and amended rules.

Following the May 2024 commission meeting, staff filed the CR 102 with the Office of the Code Reviser. Included in the CR 102 was a small business economic impact statement analysis, which concluded that the rule change does not impose more than minor costs. As discussed above, this rule changes the formula for determining how much cash a card room must have on hand and allows licensees to write checks to patrons instead of paying prizes in cash. Associated costs to small businesses would revolve around the issuance of a check to certain winning patrons. These costs are not expected to exceed three-tenths of one percent of the business's annual revenue or income.

At the August 8, 2024 commission meeting, Commissioners discussed the proposed rules. Commissioners elected to wait to take final action on this rule to give more time for staff to review the feedback submitted by Kim McCabe on August 7, 2024.

After review and discussion, staff recommended changing the word "must" to "may" in WAC 230-15-050(1). This change allows licensees more flexibility in the way they are able to pay prizes.

**At the September 12, 2024, commission meeting, Commissioners discussed the proposed rules and elected to explore additional revisions to the rule language. Specifically, Commissioners sought changes that would require cardrooms to pay larger prizes by check at the request of the player.**

### Stakeholder Feedback

Eric Persson, owner of Maverick Gaming, spoke at the March 14, 2024, commission meeting. Mr. Persson expressed his concern regarding potential safety risks associated with staff members and winning players handling a large amount of cash.

On April 15 and 16, 2024, staff hosted a feedback session with tribal partners and stakeholders where participants were invited to share their thoughts or concerns with the rule change. One participant shared information regarding Nevada's approach to this topic. Another participant expressed support for the rule change due to the dangers of robbery and crime.

On August 7, 2024, staff received an email from Kim McCabe (Maverick Gaming) with some suggested edits to the proposed language to WAC 230-15-050.

**On September 11, 2024, staff received an email from an individual who wished to stay anonymous. This individual expressed several concerns regarding the proposed rule allowing a 24-hour delay for issuing checks to players. Among their concerns were possible erosion of trust and player confidence, an unfair financial burden on players, and possible financial manipulation.**

### Staff Recommendation

**Staff recommends filing the attached language for further discussion.**

AMENDATORY SECTION (Amending WSR 22-01-182, filed 12/20/21, effective 1/20/22)

**WAC 230-15-050 Minimum cash on hand requirements.** (1) Card game licensees must have sufficient cash on hand to redeem all chips issued for play (~~and pay out all prizes~~). Licensees must exchange chips brought to the cashier's cage by players for cash. However, in the event a player requests a check instead of cash for player gambling winnings over \$5000, licensees must issue the player a check within 24 hours.

(2) Within three hours of opening for the business day, at a time included in the internal controls, house-banked card game licensees must have at least the following minimum amount of cash on premises in their cage, safe, and/or vault combined:

(a) (~~One~~) Two thousand dollars for each house-banked table on the gambling floor; plus

(b) (~~The amount of the largest single prize available excluding progressive jackpot, player supported jackpot, and house jackpot prizes.~~) One percent times card room gross gambling receipts from the previous calendar year according to quarterly license reports

submitted to the commission; however, a new house-banked card room who has not yet submitted a full calendar year of quarterly license reports must have at least \$30,000 for the purpose of this subsection.

For example: If a house-banked card room has 15 house-banked tables and ~~((a largest single prize of \$23,000, before opening, the cage))~~ their gross receipts were \$4,000,000 in their previous calendar year, they must have at least ~~((~~\$38,000~~))~~ \$70,000 cash on hand: 15 tables × ~~((~~\$1,000~~))~~ \$2,000 = ~~((~~\$15,000~~))~~ \$30,000 + ~~((largest single prize of \$23,000 = \$38,000))~~ 1% × \$4,000,000 = \$40,000.

(3) ~~((Except for the restrictions on player-supported jackpot pay outs in WAC 230-15-405 and progressive jackpot pay outs in WAC 230-15-690,))~~ Licensees may pay specific prizes by check if sufficient funds are available on deposit and they meet the restrictions in the rules below:

(a) WAC 230-15-405 - Player-supported jackpot prizes.

(b) WAC 230-15-690 - Progressive jackpot prizes.

(c) WAC 230-15-673 - House jackpot prizes.

(d) WAC 230-15-186 - Odds-based and fixed-based prizes.

(4) Failure to keep funds to cash in chips, pay prizes, or redeem gambling related checks is prima facie evidence of fraud. Meeting the minimum cage cash amount does not relieve the licensee from the

requirement to have sufficient funds available to redeem all chips and pay out all prizes.

[Statutory Authority: RCW 9.46.070. WSR 22-01-182, § 230-15-050, filed 12/20/21, effective 1/20/22; WSR 09-03-024 (Order 640), § 230-15-050, filed 1/9/09, effective 2/9/09; WSR 07-23-081 (Order 620), § 230-15-050, filed 11/20/07, effective 1/1/08; WSR 07-09-033 (Order 608), § 230-15-050, filed 4/10/07, effective 1/1/08.]

NEW SECTION

**WAC 230-15-186 Paying out odds-based and fixed-based prizes.**

(1) House-banked card room licensees must immediately pay out all individual odds-based and fixed-based prizes of \$5,000 or less.

(2) For individual odds-based and fixed-based prizes over \$5,000, licensees must immediately pay out a minimum of \$5,000 and pay the remaining balance within 24 hours by check. The player may request that the licensee pay up to the entire prize balance by check. Licensees must then issue a check for the entire prize balance within 24 hours.

[]

NEW SECTION

**WAC 230-15-187 Keeping funds to pay fixed-based prizes.** House-banked card room licensees must maintain at least the amount of the single largest fixed-based prize offered in a bank, mutual savings bank, or credit union location in Washington. Alternatively, licensees may maintain the amount of the single largest fixed-based prize in cash on the licensed premises.

Thanks for your feedback. We will make sure your feedback is included in the commission meeting packet when the rule is discussed again.

With regards to your question below, the amended rule and two new rules would **not** allow stakeholders with multiple properties to share bankrolls nor maintain a single static account for the largest single prize across all their locations. Each individual card room licensee would need to meet the rule requirements independently. Thanks.

**Dear Members of the Washington State Gambling Commission,**

I am writing to kindly request confirmation of receipt of my previous letter concerning the proposed rule change allowing a 24-hour delay for issuing checks of fixed-odds winnings on payouts exceeding \$5,000 in house-banked card rooms.

I would also like to seek clarification on whether this rule might allow stakeholders with multiple properties to share bankrolls and maintain a single static account for the largest single prize across all their locations. This could potentially put operators with single or fewer properties at a disadvantage compared to those with multiple establishments.

Thank you for your attention to this matter.

Sincerely,

[Anonymous Concerned Party]

**Subject:** 24 hour check

## **Dear Members of the Washington State Gambling Commission,**

This letter outlines concerns about the proposed rule allowing a 24-hour delay for issuing checks on payouts exceeding \$5,000 in house-banked card rooms. While the intention may be to enhance safety, this proposal risks undermining player trust, financial transparency, and operational efficiency within Washington's gaming industry.

### **Key points include:**

1. Erosion of player trust and confidence
2. Unfair financial burden on players
3. Negative impact on visitors and local gaming
4. Potential for fraud and financial manipulation
5. Redundancy with existing verification processes
6. Operational and practical concerns
7. Inconsistency with current payment options
8. Alternative solutions for liquidity management

### **Erosion of Trust and Player Confidence**

Trust between players and operators is fundamental to a healthy gaming industry. Players reasonably expect to receive their winnings promptly after a successful wager. A 24-hour delay, especially without a clear and compelling reason, could create the perception that the house is unprepared to meet its obligations, potentially undermining player confidence in Washington's card rooms.

### **Unfair Financial Burden on Players**

The proposed 24-hour delay effectively requires players to extend credit to the operator, unfairly shifting financial risk onto the players. Gamblers should not bear the responsibility of financing the house's operations, especially after risking their own money.

There is little justification for delaying payouts when the house should always have sufficient funds to meet its obligations promptly.

### **Impact on Visitors and Local Gaming**

Washington's card rooms serve both residents and visitors, many of whom have limited time for recreational activities. Players winning large sums reasonably expect prompt access to their winnings. A 24-hour delay could negatively impact the player experience, discourage participation in local gaming activities, and potentially affect revenue for these businesses and the state.

### **Fraud Prevention and Financial Manipulation**

A 24-hour delay opens the door for potential financial manipulation, where operators might rely on new player buy-ins to pay out previous winners. This could create financial instability and undermine the integrity of the gaming system. Immediate electronic transfers or check issuance would eliminate this risk and ensure payouts are based on actual liquidity.

### **Existing Verification Processes**

Operators already have mechanisms in place to work with the Washington State Gambling Commission (WSGC) in cases of uncertainty about a win. In disputes, operators can retain video recordings, request reviews, and involve the WSGC as needed. These safeguards are more than sufficient to verify the legitimacy of large wins, rendering the 24-hour delay unnecessary.

### **Operational Clarity and Practical Concerns**

The proposed rule raises several practical concerns:

- How will regulators verify that sufficient funds were available when the wager was accepted?
- How and when will the decision to pay by check be made?
- How will this affect table accounting for fixed-odds games?
- Will the floor supervisor issue an IOU to the player if the house opts to pay by check?

These operational uncertainties could lead to confusion and inefficiencies, ultimately affecting both the operators and players.

### **Consistency with Current Debit/Credit Options**

Under current regulations, players can withdraw funds using debit and credit cards,

providing immediate access to their money for gambling. To maintain consistency, this approach should also apply to cashouts and payouts exceeding \$5,000, allowing players to receive immediate payments through electronic funds transfers or checks.

### **Emergency Drop and Count Process**

One potential solution to avoid liquidity issues would be to implement an "Emergency drop and count" procedure. This would allow card rooms to access additional funds when needed without disrupting normal operations or delaying payouts to players.

### **Recommendation**

I strongly recommend that the Washington State Gambling Commission allow house-banked card rooms to issue checks immediately upon a player's request, regardless of the payout amount. If there are concerns about the validity of a win, the payout can be reviewed by the WSGC. This approach would balance fairness, safety, and operational efficiency while protecting player interests and ensuring card rooms meet their financial obligations.

### **Conclusion**

The proposed 24-hour window for issuing checks is unnecessary and could negatively impact player experience and the perception of fairness in Washington's card rooms. It introduces operational inefficiencies, erodes trust, and conflicts with principles of fraud prevention that require the immediate availability of funds.

Immediate payouts are essential for maintaining trust, ensuring fair play, and supporting the financial stability of the gaming industry in Washington. Modern banking solutions can address safety concerns without compromising the integrity of immediate payouts.

**Thank you for your time and consideration.**

Self-Exclusion**

**November 2024 – Initiate Rule Making**

<b>Tab 7: November 2024 Commission Meeting Agenda</b>	<b>Statutory Authority 9.46.070</b>
<b>Who Proposed the Rule Change?</b>	
Deandra Jackson	
<b>Background</b>	
<p>Petitioner Deandra Jackson is requesting additional or amended rules aimed at ensuring individuals understand the consequences of signing up for the self-exclusion program. The petitioner states that they did not understand what they were doing when they filled out the form. Thus, the petitioner is seeking a rule change that would require a staff member to walk through the process with the individual to ensure the individual understands what they are agreeing to. If approved, this proposal would likely take the form of new or amended rules to WAC Chapter 230-23.</p> <p>Attachments:</p> <ul style="list-style-type: none"> <li>• Petition received November 6, 2024.</li> <li>• Self-exclusion enrollment form.</li> </ul>	
<b>Policy Considerations</b>	
<p>This rule would significantly change how the self-exclusion program is operated if adopted. Currently, individuals are able to enroll in the self-exclusion program by mail, in-person at our Lacey headquarters, or at a house-banked card room. Requiring a WSGC staff member to be present during enrollment would eliminate two of these options.</p> <p>The self-exclusion program as it currently exists has several safeguards aimed at ensuring the individual understands what they are agreeing to. The self-exclusion enrollment form is available for review online in 12 different languages. Page 2 of this form includes a section that asks the individual to carefully read and initial next to 11 statements outlining the ramifications of this action. For example, the first point states “I understand that by enrolling I am prohibited from entering the premises of all house-banked card game licensees and any participating tribal gaming facilities, which may change, during the enrollment period.” The individual must initial next to each statement before they are placed onto the self-exclusion list. Additionally, the self-exclusion form contains an acknowledgement on page 3. The individual must sign directly below that acknowledgement before they are placed onto the self-exclusion list. Furthermore, contact information for WSGC’s self-exclusion administrator is listed on our website alongside the enrollment form and other materials.</p>	
<b>Staff Recommendation</b>	
<p>Under the requirements of the Administrative Procedures Act, the Commission must act on a petition within 60 days of receiving it. Your options are:</p> <ul style="list-style-type: none"> <li>• Initiate rule making proceedings by filing the rule as proposed for further discussion or</li> <li>• Deny the petition in writing, (a) stating the reasons for denial and specifically address the concerns stated in the petition, or (b) where appropriate, indicate alternative means by which the agency will address the concerns raised in the petition.</li> </ul>

## WSGC Comment of Sept 12, 2024

Gambling in the face of Suicide rv  
Submitted as Public Comment to WSGC Sept, 2024, by Nanci Watson,  
[nanci.watson@gmail.com](mailto:nanci.watson@gmail.com)

In July, I was able to attend the National Conference on Gambling Addiction & Responsible Gambling, in San Diego.

There I attended a presentation from the Center for Gambling Studies, School for Social Work - Rutgers University, New Jersey.

It was called "Gambling as a Precipitating Factor in Deaths by Suicide in the National Violent Death Reporting System", M. van der Maas, R. DiMeglio, L. Nower.

Also attending and providing support were experts in Gambling Addiction from Maryland Center of Excellence on Problem Gambling, University of Maryland School of Medicine, in Baltimore.

For me this was, on the one hand a fantastic bit of culture shock, on the other, a sensation of having met someone who knew exactly what I was thinking.

I grew up on Fox Island, in the State of Washington, right down the beach from our one-time governor Dixie Lee Ray. When I attended an upper division zoology class from her at the UW, she was accompanied on the stage by her poodle and her wolfhound. She would have loved this presentation with its big ideas and bracing detail.

In my family, among the step kids, I have been impacted by suicide since my retirement. The first the death of young teenager, previously removed from the care of her mother, and observing that mother, then homeless, sleeping all day while spending most nights at the casino; This caused me to volunteer on the Problem Gambling Taskforce, as a member of the public impacted by problem gambling,

During my time on the taskforce, I was shocked by how sluggish our analysis of the problem appeared to be.

We were repeatedly reminded that "most people can gamble without any harm" and while wrapping up our recommendations, we were told that there "just wasn't time to look at the impact of specific types of gambling.

When recommendations were made to the State Legislature, to continue with the existing membership as an advisory council, the first step taken in the House, where Rep Chris Stearn (Vice Chair, State Government & Tribal Relations and Regulated Substances & Gaming) volunteered as the sponsor, for HB 1681, was to eliminate a member of the public from the council.

Then after a first reading another change was made, to eliminate a member from the commercial card rooms, which compete with casinos, creating a substitute version of the bill. During public comment, a representative from the State Gambling Commission made it known that the staff had not received a chance to review this last change before submitting their feedback and as a result the proposed wording was not consistent with the existing legislation. That problem was then ironed out to create a second substitute version of the bill.

In the new year the Problem Gambling Advisory Council, as restructured, held its first meeting without utilizing open meeting guidelines, having been advised by legislative staff that no further Public Comment would be required.

Meanwhile from the team from Rutgers University, two hours by car, north of Atlantic City, the "Fix Was In" with these findings were being validated and published not long after the presentation:

1. "In the State of Nevada suicide deaths associated with gambling are 9x higher than Average. [Other noteworthy states were:] Delaware (1.10%), Washington (1.03%), and Oklahoma (1.00%).
2. "Financial harms seem to be most salient in the relationship between gambling and death by suicide. As a result we need to seriously consider that monitoring and addressing the impact of financial harms may be an effective strategy for reducing gambling-related suicide.
3. "Gambling on electronic gambling machines in gambling halls or bars was associated with increased odds of suicidal events. Other types of gambling ... were not associated independently with suicidal events. This result shows that the type of gambling needs to be considered as a relevant factor in gambling research. *[Taken from earlier work, 2016, Type of gambling as an independent risk factor for suicidal events in pathological gamblers, A. Bischof, et.al., see bibliography item "20".]* \*
4. "Evidence supports the fact that most harms from gambling are found among the proportion of the population that does not experience clinical levels of Gambling Disorder. *[Known as the Prevention Paradox.]* \*
5. "In 2003, an analysis of the major methodological issues facing researchers trying to measure the social costs of gambling noted that one of the greatest problems was a lack of systematically collected data. More than 20 years later, this problem persists in the US, resulting in a lack of available data that are useful in estimating the social costs of gambling. The results of [the] content analysis suggest that the NVDRS procedure could be improved with greater consideration of gambling as a contextual factor relevant to a death by suicide.
