**RE: Match the Dealer Jackpot System Upgrade v006 GET Submission #3165**

Dear Mr. Wisler,

Thank you for requesting approval of the upgrade to the Match the Dealer Jackpot System. We have completed our review.

The Match the Dealer Jackpot System v006 is approved for use in Washington State. The approval is contingent on the following requirements.

**Manufacturer Requirements:**

- Ensure licensees are aware of the issue noted during testing. Specifically, if a jackpot is voided the reseed amount is not automatically removed and will require manual editing.
- Ensure the system is configured so only one version of the casino control (CasinoControlService.exe and CasinoControlNonConsole.exe) is running during operations.
- Ensure the Jackpot system is not connected to another casino network.
- Ensure the remote administration access through web browsers is not configured for use.
- The Casino Controller PC (may be a laptop or desktop PC) must require a unique username and password at login.
- The Casino Controller PC must run in kiosk mode while the system is in play.
- If the system is used to connect different card games on multiple tables to one progressive jackpot, the system must comply with WAC 230-15-685 and only connect games that have the same probabilities to win the jackpot and the same winning hands.
- All unused USB ports must be sealed during game play.
- No internet connection is allowed on the Casino Controller PC.
- Only reviewed and tested components of Match the Dealer Jackpot System can be connected to the Casino Controller. No other programs can be run on the Casino Controller.
- Browser auto complete for username and passwords must be disabled by Masque. For example, Internet Explorer auto complete can be disabled in Windows registry settings. As with wireless functionality, non-Administrator user accounts should not have the capability to modify auto-complete settings.
- Only connect external tools to the Match the Dealer Jackpot System for standard maintenance as authorized by WAC 230-16-151.
- Update your game rules for card games that will use the Match the Dealer Jackpot System Upgrade v006.

- Only licensees operating the system shall have access to make changes to the system such as posting and/or choosing pay tables or posting the current jackpot amount.
- To make sure the system remains a closed system, no outside network connections are allowed on the Masque system. Also, any devices connected to the Match the Dealer Jackpot System must have all wireless/Bluetooth settings disabled. Casino user accounts and accounts used by Masque technicians cannot have permissions to change wireless connection settings on devices which connect to the Match the Dealer Jackpot System. Masque will ensure that only the highest-level Administrator account has these permissions and that only select Masque personnel have access to this account.

**Requirements for House-Banked Card Game Licensees:**

- Be advised of the issue noted during testing. Specifically, if a jackpot is voided the reseed amount is not automatically removed and will require manual editing.
- Ensure the Jackpot system is not connected to another casino network. For the Progressive Prize overlays on casino TV's the connection to the TV display should be audio/visual only.
- Ensure only one version of the casino control (CasinoControlService.exe and CasinoControlNonConsole.exe) is running during operations.
- No internet connection is allowed on the Casino Controller PC.
- Maintain a closed gambling equipment system that is isolated from non-gambling systems, and inaccessible from outside networks.
- Limit access to the Casino Controller by providing individual access login/passwords. The Casino Controller should reside off the casino floor in a secure area of the casino.
- Follow all progressive or house jackpot WAC rules when using this equipment.
- A printer is always attached to the jackpot system to allow the casino the ability to print reports.
- Ensure chips are placed on the center of the sensor to ensure all wagers are accurately recorded.
- When using a progressive or house jackpot, you must require a specific wagering limit on the jackpot wager (for example all progressive wagers must be \$1) to ensure all funds are accounted for.

**Tribal Casino Implementation:**

- Ensure internal controls are revised to include new equipment and procedures and approved by Tribal Gaming Agency and concurred with by Washington State Gambling Commission.
- Ensure only Tribal casinos operating the system shall have access to the system to make changes such as posting and /or choosing pay tables or posting the current jackpot amount.
- Ensure that wireless services are disabled on any computer connected to the system.
- Be advised of the issue noted during testing. Specifically, if a jackpot is voided the reseed amount is not automatically removed and will require manual editing.
- Ensure the Jackpot system is not connected to another casino network. For the Progressive Prize overlays on casino TV's the connection to the TV display should be audio/visual only.
- Ensure only one version of the casino control (CasinoControlService.exe and CasinoControlNonConsole.exe) is running during operations.
- No internet connection is allowed on the Casino Controller PC.
- Maintain a closed gambling equipment system that is isolated from non-gambling systems, and inaccessible from outside networks.
- Limit access to the Casino Controller by providing individual access login/passwords. The Casino Controller should reside off the casino floor in a secure area of the casino.

Any modifications made to the Match the Dealer Jackpot System must be submitted to us for additional testing and review. We reserve the right to investigate and reevaluate this equipment if we determine that such a review is necessary to ensure compliance with applicable rules or laws in Washington.

Thank you for your cooperation during this process. We appreciate your desire to comply with our regulations. If you have any questions regarding this matter, please contact me at (509) 481-1573.

Sincerely,

Jim Nicks  
Assistant Director  
Enforcement and Operations Division
