PUSH YOUR LUCK BLACKJACK BONUS WAGER RULES AND DEALING PROCEDURES

Push Your Luck is standard house-banked blackjack but with an optional bonus wager. All rules pertaining to blackjack as posted on the WSGC's website remain the same except as listed in these rules of play.

A round of Push Your Luck Blackjack begins with each player placing two (2) separate bets on the table, (1) on the Push Your Luck bonus wager circle or logo directly in front of the player (note: this bet is optional) and (2) in the main Blackjack wager circle directly in front of the player (this bet is mandatory, See Table Game Layout).

The player may wager any amount up to half of the main Blackjack wager on the Push Your Luck bonus wager. Therefore, the Push Your Luck bonus wager amount cannot exceed half of the main Blackjack wager.

Once the above two wagers are placed, the dealer will deal standard Blackjack as per house rules. In the event the Player and Dealer push at the end of the Blackjack hand, the Dealer must pay the Player 10 to 1 on the Push Your Luck bonus wager (if bet) and the main Blackjack wager will push. If at the end of the Blackjack hand, the player's hand does not tie the dealer's hand, all Push Your Luck bonus wagers are lost. If the player's final Blackjack hand is higher than the dealer's hand, then the player will lose the Push Your Luck bonus wager (if bet) but will be paid even money on the Blackjack wager. If the player's final Blackjack hand is lower than the dealer's hand or if the player busts his or her hand, then the player will lose both the Push Your Luck bonus wager and Blackjack wager.

The following rules will also apply to the Push Your Luck bonus wager: Blackjacks can only tie Blackjacks, 21's can only tie 21's, 20's can only tie 20's, 19's can only tie 19's, 18's can only tie 18's, and 17's can only tie 17's, and Bust hands cannot tie. All ties pay 10 to 1 on the Push Your Luck bonus wager.

Operators cannot allow wagering limits to exceed the authorized limits set out in WAC 230-15-040 and WAC 230-15-140.
