

Player's Cards Only

- Blazing 7's jackpot is an optional jackpot wager for house-banked blackjack games in which one common jackpot can be used with the following WSGC approved game titles
 - Bet the Set
 - Free Bet Blackjack
 - House Money
 - Kings Bounty
 - Royal Match
 - TriLux Blackjack
 - Zappit Blackjack
- All rules pertaining to standard blackjack and approved blackjack variation games as posted on the WSGC's website remain the same and are not altered in this game. If linking multiple blackjack games, the same paytable and the same number of decks must be used between all linked games. This game uses a minimum of six decks.
- Operators cannot allow wagering limits to exceed the authorized limits set out in WAC230-15-040 and WAC 230-15-140.
- This game will use the approved LNW Gaming, Inc owned jackpot system Nexus Command Game Manager 2 v2.5.4 or higher and a jackpot display or GM Atlas v5.4.0/Nexus Command II v5.4 or higher. The jackpot display can either be provided by LNW Gaming, Inc or the operator.
- The jackpot display should be a table mounted monitor with no additional intelligence or functionality, including but not limited to network capability (wired or wireless). This non-intelligent monitor can either be provided by LNW Gaming, Inc or the operator so long as it does not introduce any additional functionality.

House Jackpot and Progressive Jackpots

- Operators may choose to offer up to two jackpot game options on a layout using two independent wagering sensors and displaying two independent jackpot amounts.
- Each jackpot sensor is considered a separate game.
- Progressive Jackpots cannot be linked with House Jackpots.
- All jackpots on a table must be of a single jackpot type (House Jackpot or Jackpot).
- Operators can only offer one jackpot game option per sensor.
- When operated as a house jackpot, the jackpot amount is at the discretion of the casino. Prizes are set by the casino and are required to be displayed at each gaming table. Prizes displayed are considered property of the casino until won by one or more players. The casino must post all required notices and disclosures at each table and follow all rules for house jackpots in WAC 230-15-671.
- When operated as a progressive jackpot, rules for progressive jackpot prizes are contained within WAC 230-15-680 through WAC 230-15-720.

NEXUS COMMAND/GM ATLAS

Blazing 7's Jackpot Rules of Play (Players Card Only)

1. Blazing 7's jackpot is an optional jackpot wager for blackjack.
2. Players must make a standard blackjack bet in order to make a Blazing 7's jackpot wager.
3. The Blazing 7's jackpot considers the player's hand only. If the player does not have at least one 7 in the player's initial two cards, the jackpot bet will lose.
4. To begin each round, players must make their standard blackjack wager. They may also place an optional jackpot wager. Players must place the jackpot wagers on the sensor in front of their betting position. The sensor will light up.
5. Once all players place their bets, the dealer will press "START GAME" on the keypad. The sensors will then light up, indicating a jackpot wager. The dealer will remove all jackpot wagers on the table.
6. The dealer will then follow standard dealing procedures for blackjack.
7. The player's Blazing 7's wager will win if the player has any 7's in their initial two cards. (see payable)
8. If the player has two 7's in the first two cards and their first hit card is also a 7, the player will qualify for one of the Three 7's payouts.
 - a. Note: The "Two 7's" payout is based upon the player's first two cards only.
9. If the player receives two 7's in their first two cards and chooses to split, the jackpot payout will be based on the third card dealt to that player.
10. If the player busts, the bust card does NOT count toward the player's Blazing 7's Prog. bet.
 - a. The dealer will pick up the player's losing primary wager first, then pay the jackpot wager, pick up the cards, and continue dealing.
11. After the dealer has completed their hand, the dealer will pay and take player's hands as follows.
 - a. Working from right to left pay or take primary wager first.
 - b. Pay the jackpot wager if applicable.
12. Once all bets have been reconciled the dealer will hit "END GAME."
13. Jackpot Winner:
 - a. The percentage pays are paid from the jackpot shown on the jackpot meter.
 - b. Other hands are paid from the chip tray; they do not come off the meter.
 - c. In the event more than one jackpot meter pay hits during the same round, the dealer will first pay the player farthest on their right and then move counter-clockwise to pay other players. As Regulatory procedures permit, this policy can be replaced by casino internal controls.
 - d. When a player has a jackpot winner, the dealer will select the player spot corresponding to the player with the winning jackpot hand. The dealer will then press the appropriate hand button on the display. (If the hand button is pressed by accident, pressing it again will turn it off.)
 - e. The dealer shall then contact a supervisor.
 - f. Once the casino verifies the jackpot win, the supervisor will press the confirm button. To complete the action, a Supervisor or Executive card (depending on jackpot level) swipe is required. This records the win onto the Game Manager computer and adjusts the meter appropriately for the prize won. House procedures are then followed for paying the prize.
 - g. When the dealer reconciles all action, he presses "END GAME." This resets the system to begin the next hand.
 - h. Once the Supervisor or Executive card (depending on the jackpot level) is swiped the prize is logged into the Game Manager. If the jackpot pay needs to be backed out at this point, the award will need to be manually backed out using the Game Manager manual adjustment feature.

Blazing 7's Jackpot

Hand	1 Pays*
Three 7's - Same Suit	100%
Three 7's - Same Color	10%

Either of the First Two Cards - 7	2 for 1
Hold	22.39%
Hit Frequency	14.82%
*Original wager NOT returned	

Designed for 6 decks

All settings and pays, listed in the above pay tables, are based off a fixed \$1 wager. Card room operators may select a different fixed wager amount. If the Jackpot is configured with a different fixed wager amount, pays are multiplied accordingly and displayed on the meter.

PROGRESSIVE SYSTEMS FLEXIBILITY and RECOMMENDATIONS:

- Progressive meter contribution
 - When using a pay table in which all payouts are deducted from the meter, we recommend utilizing the system to configure meter contribution rates anywhere between 0-100%.
 - Most pay tables with this style of math are designed to grow over time when a contribution rate of 70% or more is used. If less is contributed, the risk of the meter “running dry” increases.
 - When using a pay table in which only the progressive (percentage) pays are deducted from the meter, we recommend only reducing the pre-configured meter contribution rate if any changes are made. Adjusting the contribution rate above the pre-configured value would reduce the mathematical house advantage of the wager.

- Reserve contribution
 - We recommend contributing a small portion of each progressive wager to the reserve. This amount will be added on to any configured seed amount after a 100% award is given, and will help reduce the drop in play expected after a jackpot hits.
 - We do not recommend eliminating a seed amount entirely and using the reserve as the only seed mechanism. All games present a certain likelihood of back-to-back awards, and this method runs the risk of restarting the meter at a very low amount in that case.

- Seed amount
 - We recommend using the pre-configured seed amount in the system. This amount is specific to the pay table selected for use, and is designed to offer a reasonable starting point that works with the pay table’s math.
 - If any changes are made, we recommend the seed amount to be at least as large as the largest “fixed” award on the pay table.
 - We do not recommend configuring a \$0 seed amount.

BLACKJACK PAYS 3 TO 2
Dealer Must Hit Soft 17

Pays 2 to 1

INSURANCE

Pays 2 to 1

The insurance betting area is a semi-circular section of the table. It contains ten betting spots arranged in three rows: two in the top row, three in the middle row, and five in the bottom row. Each spot is represented by a white circle with a red center. The text "BLACKJACK PAYS 3 TO 2 Dealer Must Hit Soft 17" is written in a white, curved banner at the top of the area. The word "INSURANCE" is written in large, bold, white letters in the center. On either side of the word, the text "Pays 2 to 1" is written in a smaller, white, curved font.
