RULES OF PLAY

Million Dollar Match The Dealer is a card game that can use 5 decks, 6 decks or 8 decks of standard 52-card-deck playing cards. Players may make up to five wagers, each wager is trying to match, in rank, one or both of the player's own 2 cards with the corresponding dealer card identified in the particular wager spot. If a player makes at least a \$5 wager on each of the five wager spots, then the player also automatically qualifies for a Super Bonus payout if the player's hand achieves any of the Super Bonus Matches listed in the Super Bonus pay table -- using both of the player's own two cards plus any of the dealer's cards.

Card room operators must not allow wagering limits to exceed the authorized limits set out in WAC 230-15-040 and WAC 230-15-140.

1. To start a round of play, each betting player must make a wager on at least one of the five wager spots. The player may wager on multiple, or all 5, wager spots.

Each wager spot corresponds specifically to one of the dealer's cards. For example, the 1st Card wager spot corresponds to the dealer's 1st card; the 2nd Card wager spot corresponds to the dealer's 2nd card; and so on.

So, if a player places a wager on the 1st Card wager spot this wager is trying to match, in rank, one or both of the player's own two cards specifically with the dealer's 1st card. If a player places a wager on the 4th Card wager spot this wager is trying to match one or both of the player's own two cards specifically with the dealer's 4th card. And so on.

2. Each betting player receives two cards face up, and the dealer receives five cards face up.

On the layout there is an area for the dealer to place each dealer card -- there are designated spaces specifically for the dealer's 1st card, 2nd card, 3rd card, 4th card and 5th card. The first card drawn for a dealer's card should be placed face up in the 1st card area, the second card drawn for a dealer's card should be placed face up in the 2nd card area, and so on.

3. The dealer will resolve each player's wager spot(s) by checking to see if either of the player's two cards match the dealer's corresponding card in rank. Payouts for each card match will be made according to the Match The Dealer individual wager Payout below. If neither player card matches the dealer's corresponding card, the player loses that specific wager.

Match The Dealer individual wager Payouts

	Unsuited Match Payout	Suited Match Payout
5 deck	3 to 1	13 to 1
6 deck	4 to 1	9 to 1
8 deck	3 to 1	12 to 1

4. Super Bonus -- any player that wagers at least \$5 on each of the five wager spots will automatically qualify for a Super Bonus payout if the player's hand achieves any of the Super Bonus Matches listed in the Super Bonus pay table. A winning hand must use both of the player's own two cards plus any of the dealer's cards to create one of the Super Bonus Matches. And only the highest winning hand is paid. Super Bonus payouts will be made according to one of the pay table options below, selected by the operator.
