**Re: Barrel of Laughs Amusement Game**

Dear Mr. Berger,

Thank you for submitting the Barrel of Laughs amusement game, manufactured by Universal Space, to us for review. We have completed our review.

It is my understanding the game plays as follows:

Players use an automatic launcher to shoot balls into 10 targets. The targets light up to illuminate each target hit. If the player successfully lights up all target lights they will win the bonus and drop the clown. The game may be played with one or two players.

The Barrel of Laughs amusement game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 5 Hand/Eye Coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the Barrel of Laughs amusement games software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

Sincerely,

Mark Harris  
Assistant Director  
Field Operations Division
