**Re: Barrel of Monkeys Amusement Game – WA/NJ Version**

Dear Mr. Manning,

Thank you for submitting the Barrel of Monkeys amusement game, manufactured by Play Mechanix Inc., to us for review. During the review it was noted that the software has been modified for Washington State. Specifically, the target payout percentage feature that allowed the operator to set the target payout level has been disabled. Special Agents Karen Rea and Sonja Dolson have completed their review.

It is my understanding the game plays as follows:

This game is based on the classic game by Hasbro. Players attempt to link monkeys together to win tickets. Different monkeys are worth different ticket amounts. If a player links 10 monkeys together they advance to the secret chamber where they have a chance to win the bonus.

The Barrel of Monkeys game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 5 Hand/Eye Coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the Barrel of Monkeys amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

Sincerely,

Mark Harris  
Assistant Director  
Field Operations Division
