**Re: Blaster Amusement Game**

Dear Mr. Manning,

Thank you for submitting the Blaster amusement game, manufactured by Benchmark Games Incorporated, to us for review. Special Agents Karen Rea and Sonja Dolson have completed their review.

It is my understanding the game plays as follows:

A player pushes a button to release a ball toward several lit targets. The object is to hit all lit targets by timing the shooting arm and hitting the ball up the ramp. If the player hits all lit targets they advance to the bonus round. If all lit targets are hit in the bonus round the bonus listed on the display is awarded.

The Blaster game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 5 Hand/Eye Coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the Blaster amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

Sincerely,

Mark Harris  
Assistant Director  
Field Operations Division
