**Re: Cut the Rope Amusement Game software version is UE 3.3**

Dear Mr. Kania,

Thank you for submitting the Cut the Rope amusement game to us for review. Special Agents Karen Rea and Sonja Dolson have completed their review. It is my understanding the game plays as follows:

The object of the Cut the Rope game is to use the joystick to position the vacuum plunger over a colored disc. After the player positions the vacuum plunger, they press the button to drop the vacuum inside the colored disc attached to a prize. The colors on the discs are associated with different difficulty levels which are displayed on the game. If the player drops the plunger in one of the colored discs, the prize is lifted and then dispensed from the game. The Cut the Rope game price per play can be adjusted based on the location and value of the prizes. You were advised that the maximum wager is \$3.50 and maximum prize is \$500 for locations where minors are allowed to play in Washington.

The Cut the Rope game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 7 Crane (WAC 230-13-045) amusement game in Washington State. Licensees operating the Cut the Rope games must ensure the game complies with the crane game standards in this rule.

Please be advised that any modifications to the Cut the Rope amusement game software or associated equipment must be provided to us for additional testing and review. In addition, the approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

Sincerely,

A handwritten signature in cursive script that reads "Mark Harris".
