Gardena, CA 90248

**Re: Despicable Me Jelly Lab**

Dear Mr. Maniscalò,

Thank you for submitting the *Despicable Me Jelly Lab* amusement game, manufactured by Andamiro Inc., to us for review. We have completed our review.

It is my understanding the game plays as follows:

Players time the drop of a token onto different colored spots on a moving platform. If the token lands completely within the colored area they receive the number of tickets listed on the colored area. There are also areas on the platform that say card drop. If the token lands completely within the card drop area, a character card is dispensed. If the player collects all character cards they win the bonus displayed on the game.

The *Despicable Me Jelly Lab* game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 8 Penny Fall (WAC 230-13-050) amusement game in Washington State.

Please be advised that any modifications to the *Despicable Me Jelly Lab* amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (425) 277-7026.

Sincerely,

A handwritten signature in black ink, appearing to read "Danny Lisa".
