Re: Doodle Jump Amusement Game Version #V01.03.00 NJS

Dear Mr. Coppola:

Thank you for submitting the Doodle Jump amusement game to us for review. Special Agents Karen Rea and Sonja Dolson have completed their review. In the information submitted, it was noted that the software version has been modified to comply with WA regulations. Specifically, the auto play option which allows the game to "auto play" after a certain time period has been disabled.

It is my understanding the game plays as follows:

The game is based on the doodle jump app. Players slide a joystick from left to right to jump up on each platform to move up. As they move up they may hit springs, jet packs, propeller hats, and trampolines which will get them to the top faster. The players try to avoid UFO's, black holes, and other items. The object of the game is to get to the top quickly to win tickets. If a player gets to the top they have an opportunity to win the super bonus.

The Doodle Jump game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 5 Hand/Eye Coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the Doodle Jump amusement game software or associated equipment must be provided to us for additional testing and review. In addition, the approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

Sincerely,

A handwritten signature in cursive script that reads "Mark Harris".
