Re: Down the Clown Amusement Game

Dear Mr. Manning,

Thank you for submitting the Down the Clown amusement game, manufactured by Innovative Concepts in Entertainment (ICE), to us for review. Special Agents Karen Rea and Sonja Dolson have completed their review.

It is my understanding the game plays as follows:

This game is similar to the already approved ball toss games. Players toss balls and try to knock down the clowns to win tickets. If the player knocks down a clown when a red light is lit, the player receives double points. If a player earns a predetermined amount of points during game play, they will receive the bonus prize.

The Down the Clown game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 1 Ball Toss (WAC 230-13-015) amusement game in Washington State. Licensees operating the Down the Clown game must ensure the game complies with the ball toss standards in this rule.

Please be advised that any modifications to the Down the Clown amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

Sincerely,

Mark Harris
