Re: Fire & Ice X-treme – Version # FIRE-ICE WASH.1.5

Dear Mr. McWilliams,

Thank you for submitting the Fire & Ice amusement game to us for review. Special Agents Karen Rea and Sonja Dolson have completed their review. It is my understanding the game plays as follows:

The object of the Fire & Ice game is to time the drop of the balls as the wheel spins to drop the balls in either all of the fire slots or all of the ice slots. Players win tickets when they successfully drop the balls into the slots. The player uses hand-eye coordination by pushing a button to drop the balls as the wheel spins.

The Fire & Ice amusement game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group V, hand/eye coordination (WAC 230-13-035) amusement game in Washington State. The approval is contingent on the following requirements:

- The Ball Drop Mode noted in the manual must be set to the One-Ball Drop Option. This ensures one ball is dropped each time the play button is pressed. The option to drop all balls at once is not allowed in Washington.
- The wheel speed must be set at 1 which is the speed it was set at when reviewed by staff.

Please be advised that any modifications to the Fire & Ice amusement game software or associated equipment must be provided to us for additional testing and review. In addition, the approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

Sincerely,

Mark Harris
Assistant Director
