Re: Fishbowl Frenzy

Dear Mr. Manning,

Thank you for submitting the Fishbowl Frenzy amusement game, manufactured by Team Play Inc., to us for review. Special Agents Karen Rea and Sonja Dolson have completed their review.

It is my understanding the game plays as follows:

Players push a button to drop the balls from the top of the game. The object of the game is to time each ball drop to land in the higher ticket value fishbowls. In addition, if the player is able to hit the multi fishbowl they receive additional balls to play and the opportunity to win more tickets.

The Fishbowl Frenzy game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 5 Hand/Eye Coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the Fishbowl Frenzy amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

Sincerely,

A handwritten signature in cursive script that reads "Mark Harris".
