**Re: Pirate's Hook Amusement Game**

Dear Mr. Berger,

Thank you for submitting the Pirate's Hook amusement game, manufactured by Universal Space, to us for review. In the information submitted, it was noted that the software has been modified for Washington State. Specifically, the auto play option has been disabled. This feature allowed the game to automatically drop the hook after a predetermined time without player interaction.

It is my understanding the game plays as follows:

Pirate's Hook is a video style fishing game. Players push a button to drop their hook to attempt to catch the fish on the screen. Once the fish are hooked, the player uses the handle to reel in the fish. The bigger the fish the higher score the player receives. Players win tickets based on their score. If the player catches the lobster they win the jackpot prize. The lobster jackpot prize is available for every game played.

The Pirate's Hook game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 5 Hand/Eye Coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the Pirate's Hook amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

Sincerely,

Mark Harris  
Assistant Director  
Field Operations Division

# PIRATE'S HOOK

**REAL REEL  
FISHING ACTION!**

The bigger the fish, the higher the score  
Catch the lobster, win the treasure!
