Re: Raptors Revenge Amusement Game

Dear Mr. Faith,

Thank you for submitting the Raptors Revenge amusement game to us for review. In the information you provided it was noted that the game will automatically stop if either the slow or fast stop buttons are not pushed. You were advised that the auto stop feature is not allowed in Washington. You agreed to remove this feature so the player must hit a stop button to play the game.

It is my understanding the game plays as follows:

The player attempts to shoot balls from a gun into the colored dinosaur hoops or cups. The players win the number of tickets displayed next to the hoops or cups. If the player shoots the ball into the dinosaur's mouth they get to play for the bonus. When playing for the bonus, the player spins the wheel and attempts to stop the spinner on the highest value prize. The player wins the number of tickets displayed on the location where the spinner stops

The Raptor Revenge game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 5 Hand/Eye Coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the Raptors Revenge amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

Sincerely,

A handwritten signature in black ink that reads "Mark Harris".
