Re: Sharp Shooter Amusement Game

Dear Mr. Berger,

Thank you for submitting the Sharp Shooter amusement game, manufactured by Coastal Amusements Inc., to us for review. We have completed our review.

It is my understanding the game plays as follows:

The game is designed based on the real event in the Olympic Games. Players use the rear and front sights to aim at the target on the screen and pull the gun trigger to shoot the targets. There are time restrictions that give the player an opportunity to experience the real tension in the Games. The difficulty increases as the players move through the different levels. Tickets are awarded based on the game score.

The Sharp Shooter game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 10 shooting (WAC 230-13-060) amusement game in Washington State.

Please be advised that any modifications to the Sharp Shooter amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

Sincerely,

Mark Harris
Assistant Director
Field Operations Division
