Re: Space Ballz Amusement Game

Dear Mr. Manning,

Thank you for submitting The Space Ballz game to us for review. Special Agent Supervisors Karen Rea and Sonja Dolson have completed their review. It is my understanding the game plays as follows:

A player is given a fixed number of balls to play this game. The object of the game is to time each ball drop to land in the higher ticket value slots. In addition, if the player is able to time a ball drop and land in the bonus hole, they receive additional balls, allowing the player the opportunity to win more tickets.

The Space Ballz game is approved for use as Group V, hand/eye coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the Space Ballz amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

Sincerely,

A handwritten signature in cursive script that reads "Mark Harris".
