Re: Whack N Win Amusement Game

Dear Mr. Manning,

Thank you for submitting The Whack N Win amusement game to us for review. Special Agents Karen Rea and Sonja Dolson have completed their review. It is my understanding the game plays as follows:

Players use a hammer to strike the target area and a light travels towards the top of the game. If the player hits the target too hard the light will travel back down the game and stop on a light. If the player hits the target too soft the light will stop before it reaches the top of the game. The player receives the ticket value posted next to the location where the light stops. If the player successfully reaches the jackpot they receive the jackpot prize.

The Whack N Win amusement game is approved for use as Group V, hand/eye coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the Whack N Win amusement game software or associated equipment must be provided to us for additional testing and review. In addition, the approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

Sincerely,

Mark Harris
Assistant Director
Field Operations Division
